Major F. W. WODEHOUSE,

Political Agent, Kolhapur and S. M. Country.

Sir,

I have the honour, by direction of the Chief of Sangli, to submit the Annual Administration Report of the Sangli State for the Fasli year 1320 ending 5th June 1911.

CHAPTER I.

General and Political.

2. The State is divided into 6 widely scattered Talukas spread over four Collectorates of the Bombay Presidency, extending from the river Bhima on the North to the Tungbhadra on the South. It has an area of 1,112 square miles and a population numbering 2,27,146 according to the Census of 1911. The gross revenue of the State is Rs. 10,75,756 based on the average of the last five years.

3. The Sangli State does not pay annual tribute to Government or to any State. It has once for all ceded to Government, territory yielding in 1821 an annual rental of Rs. 1,35,000 in commutation thereof.

4. Shrimant Chintamanrao Dhundirao *alias* Appasaheb Patwardhan, the Chief of Sangli, is a Chitpavan Brahmin, aged 21. On the 29th of June 1910 the Chief married Miss Kamalabai daughter of Mr. M. V. Joshi one of the leading pleaders of Umaraoti.

5. Shrimant Vithalrao Bapusaheb, the Chief's younger brother who is in his twentieth year is reading for the I. C. S. Examination. His guardian Colonel Ferris reports his progress in studies to be satisfactory.

6. Major H. Harrison, the Assistant Political Agent, and Major F. W. Wodehouse, the Political Agent, Kolhapur and S. M. Country, both paid their visits to the Sangli State during the year under report, the former in July 1910 and the latter in July 1910 and in February 1911. The Assistant Political Agent, also visited Terdal, Shirhatti and Shahapur Talukas of the State.

CHAPTER II.

Administration of Land.

7. The revised rates of assessment for the Shirhatti Taluka were declared in November 1910 and will come into force from Fasli 1321. The revised rates are guaranteed for 30 years.

8. The original Survey of the State was completed in 1880 and the Revision Survey in 1908. The present rates of Mangalwedha and Shahapur Taluka are to remain in force till 1912 and those of Miraj-Prant, Kuchi and Terdal till 1915 when the revised rates will be introduced.

9. There are 42 Inam and Sub-Saranjam villages in the State, of which there still remain 10 in which Survey Settlement has not been introduced. Survey Settlement has also not been introduced in one of the four Makta villages in the Shahapur Taluka.

10. About 180 acres of land in the Miraj-Prant Taluka has been permanently thrown out of cultivation, a greater part being taken into Gaothan land at Sangli for building purposes. Nearly 8 acres of waste land in the Mangalwedha Taluka was taken up for cultivation during the year under report.

11. At the close of the year 1909-10 there were 9 boundary disputes pending settlement. Two new disputes came on record this year, while only one has been settled during the year under report. Out of the 10 that remain 7 are between this State and the British Government and 3 between this State and other Native States.

12. The land revenue demand according to the Jamabandi of the year amounted to Rs 6,04,562 against Rs 6,10,973 of the previous year. The total collections of the land revenue inclusive of the fluctuating revenue during the year were Rs 6,24,463 against Rs 6,52,524 of the preceeding year, while the arrears to be recovered amounted to Rs 1,07,767 against Rs 1,03,926 at the end of the last year.

13. The following table shows the extent of cultivation during the year under report as compared with that of the last year:—

Talukas.	Total cultivable area.		Actually cultivated.		Taken up for cultivation.		Thrown out of cultivation.

86. The health of the prisoners was generally good. 78 were under medical treatment of whom 75 were cured, 2 died and 1 remained under treatment at the close of the year.

87. The remission system is working well. Out of the 127 prisoners released during the year 67 obtained the benefit of remission which ranged from 20 to 206 days.

88. The amount realized on account of jail labour was Rs. 1,470 as detailed below:—

Rs.	820	on account of	factory labour.
„	450	„	sweeping the Wada compound.
„	200	„	grinding corn for the contractors.

89. The Press, the Hospital and the Ambrai gardens have each been supplied with prison labour free of charges. From the next year, however, all labour is to be charged.

90. Major H. Harrison, Assistant Political Agent, S. M. Country, visited the jail and remarked as follows:—

> " The Sangli Jail is a particularly up-to-date institution and the day and night cells and the washing arrangements struck me as particularly excellent. The carpet making flourishes greatly and I understand that steps are being taken to introduce vegetable dyes. "

91. Major F. W. Wodehouse, Political Agent, Kolhapur and S. M. Country, who also paid a visit to the jail during the year under report, expressed his approbation in the following words:—

> " The jail is as well managed as it was under the Administration. It is a credit to the State and to Dr. Deva the Superintendent. "

Lock-ups.

92. In the several lock-ups there were at the beginning of the year under report 8 under-trial prisoners and 7 convicts against 7 under-trial prisoners and 2 convicts at the beginning of the preceding year. During the year under report 141 against 145 under-trial prisoners and 78 against 71 convicts were admitted, giving a total of 149 and 85 respectively against 152 and 73 of the last year. At the close of the year there remained in the lock-ups 3 under-trial prisoners and 1 convict.

Registration.

93. The details of the work done by the Registration Department are given in Appendix XIV. The number of documents presented for registration during the year under report was 3,206 against 3,226 in the last year, making with the last years' balance of 26 a total of 3,232. of these 3,181 against 3,207 were registered, 9 against 13 were refused registration and 42 against 26 remained unregistered at the close of the year. The total value of documents registered during the year was Rs. 10,29,906 against Rs. 9,90,141 in the previous year.

94. The receipts and expenditure of the Registration Department amounted respectively to Rs. 16,398 and Rs. 1,183 against Rs. 15,537 and Rs. 800 of the last year, leaving a balance in favour of the State of Rs. 15,215 against Rs. 14,737 of the previous year.

Municipalities.

25. Information regarding the receipts and expenditure of the Municipalities in the State is given in Appendix XVI. The receipts and expenditure of the year were Rs. 52,313 and Rs. 52,634 against Rs. 51,880 and Rs. 48,607 respectively of the previous year. The closing balance on 31st March 1911 was Rs. 25,427.

96. The arrears outstanding at the close of the year are Rs. 16,395 against Rs. 19,526 at the end of the last year.

97. The principal source of income of the various Municipalities is house-tax. Octroi is levied at Mangalwedha and Rabkavi only. The receipts from that source are Rs. 1,410 for Mangalwedha and Rs. 1,082 for Rabkavi. The Octroi revenue at Shahapur has been taken over by the State and a fixed amount of Rs. 2,000 a year is given in lieu of it to the Shahapur Municipality.

98. The receipts of the fees on the sale of cattle at Sangli were Rs. 2,380 against Rs. 2,340 of the last year.

99. Of the Municipalities in the State, those at Sangli and Shahapur have the right of election, while the councillors of the other Municipalities are nominated by the State. The work of the several Municipalities was on the whole satisfactory.

Wards' Estates.

100. At the beginning of the year there were 54 minors with 46 estates under the care of the State. One minor with one estate against 4 minors with 4 estates of the previous year came under the State management during the year, making a total of 55 minors with 47 estates.

101. During the year under report 5 estates against 1 estate of the last year were handed over to 6 minors on their attaining majority and no estate against 3 in the last year was delivered over to certified guardians. One minor fell a victim to plague at Shapapur and his brother who is also a minor has been registered a new.

102. At the end of the year there remained 42 estates owned by 49 minors against 46 estates and 54 minors of the last year. Particulars of these estates are given in Appendix A.

103. The opening and closing balances of the minors for the year under report were Rs. 3,54,070 and Rs. 4,00,506 respectively as against Rs. 3,41,666 and Rs. 3,54,070 of the last year. Of the closing balance Rs. 3,71,000 are invested in Government securities, Rs. 2,548 are deposited in Postal Savings Bank, Rs. 24,056 are in the Pathak Treasury and the remaining Rs. 2,902 are in the hands of the respective Vahiwatdars to meet the current expenditure of the different minors.

104. The income of the minors realized during the year consisted of the following principal items:—

		Rs.
1	Rent of lands	10,049
2	Interest on loans..	20,595
3	Recovery of debts	36,422
4	Sale proceeds of ornaments etc..	1,707
5	House rent...	705
6	Other mis., receipts	53,606
	Total.....	1,23,084

The aggregate money value of the minor's estates amounts to Rs. 5,48,000. It is made up as follows:—

		Rs
1	Immoveable property measuring 1280 acres assessed at Rs 3,010	50,038
2	Moveable property including bonds, personal debts, ornaments etc.	97,456
3	Cash including sums invested in Govt. Securities and deposited in Postal Savings Bank...	4,00,506
	Total.....	5,48,000

105. The sub-joined table classifies the 42 estates in regard to their annual income:—

Not exceeding Rs. 50.	Above Rs. 50 but not exceeding Rs. 100.	Above Rs. 100 but not exceeding Rs. 500.	Above Rs. 500 but not exceeding Rs. 1,000.	Above Rs. 1,000 but not exceeding Rs. 5,000.	Above Rs. 5,000 but not exceeding Rs. 10,000.	Total minors' estates.
11	4	10	10	6	1	42

106. Out of 49 minors 10 are girls; only one of them attends school. Of these two are Brahmin girls and 8 are non-Brahmins. Out of the girls one is a Brahmin and 2 are non-Brahmin widows.

107. Of the 39 boy minors 34 attend school and the remaining 5 belong to the working classes and follow their respective family avocations.

108. The minors' affairs are carefully looked after. The Nyayadish and the Curator of minors inspected the working of the local Vahiwatdars and are satisfied that the minors' interests are being properly watched.

CHAPTER IV.

Production and Distribution.

Weather and Crops.

109. Appendix XVII gives figures of rain-fall for all the Talukas of the State.

110. The rain-fall in all the Talukas was fair. In Mangalwedha and Shirhatti, however, it was a little out of season and crops in both these Talukas suffered a little.

111. Appendix XVIII compares the prices of food-grains in the year under report with those of the previous year.

Wages.

112. The wages of skilled and unskilled labour ranged respectively from 8 annas to 1 rupee and 3 annas to 6 annas per day. Scarcity of labour was felt in Miraj-Prant and Mangalwedha at the time of gathering the crops, when sometimes 8 annas a day had to be paid to an adult labourer.

Forests.

113. The area of State Forests has this year decreased by about 17 acres. Some 33 acres from the Jalwadgi forest were given out for cultivation and about 16 acres of land from Parsenhatti was added to the Shapur Forest. The area under Forests at the end of the year was thus 60,679 acres as against 60,696 in the last year.

114. The receipts and expenditure of the Forest Department for the year under report amounted to Rs. 20,854 and Rs. 10,129 against Rs. 20,330 and Rs. 11,320 respectively of the last year.

115. The quaters for the Forest Officer have been completed.

116. The co-coanut plants in the Godihal nursery have severely suffered from an attach of grub. The betelnut plants are however in a fair condition.

117. The number of forest offences detected during the year was 5 against 10 of the last year. Out of these, 4 were compounded and only one committed to the Magistrate, wherein conviction was secured.

Trade.

118. Sangli has a flourishing trade in Jagree, Turmeric, Ghee, Tobacco, Cotton and Chillies. The opening of the Sangli State Railway and the erection of godowns for wholesale Traffic have conduced to its increase. The other Trading centres are Rabkavi and Shahapur which export cotton piece-goods and coloured and uncoloured cotton and silk yarn. The exports from these towns are estimated at Rs. 3,00,000 and Rs. 3,90,000 against Rs. 2,50,000 and Rs. 6,00,000 respectively for the last year.

Manufacture.

119. Sangli is noted for the manufacture of wares of copper and brass, silver and steel both ornamental and useful and also of gold ornaments. Shahapur and Rabkavi have long been known for the manufacture of cotton and silk sarees and for the fast dyes which they give to cotton and silk yarn. These splendid dyes are now giving place to cheep running dyes except in Rabkavi, where weavers have again resorted to their original practice of fast dyeing.

120. Terdal and Hangandi manufacture copper and brass wares especially of the larger kind for house-hold use. Country blankets are manufactured in Shirhatti and in the adjoining villages. Kavtha-Mahankal produces felts and rough woolen carpets. Marihal and Balekundri in Shahapur Taluka and Bannikop in Shirhatti Taluka have small factories of glass bangles. Belghatti in Shirhatti Taluka produces utensils made of a soft stone found in quarries in its neighbourhood.

121. Two Ginning Factories, and 3 Turmeric Factories were at work at Sangli during the year under report. Grinding mills are attached to two of the Turmeric Factories: one of these does, besides, the work of sugarmaking. One of the Ginning Factories has been furnished with a Press. To the two Ginning factories at Yerebudhihal in Shirhatti Taluka, one more at Madhalli also worked by oil-engine has been added, making in all 3 factories in that Taluka.

Public Works.

122. The total expenditure on Public Works Department incurred by the State during the year under report was Rs. 3,79,710 against Rs. 3,84,107 in the previous year: while that incurred by the Local Boards on works of public utility was Rs. 77,624 against Rs. 89,717 in the preceding year.

125. The infiltration gallery, the inlet well and the outer well of the Sangli Water Works Scheme have been completed. The fixing of the engines and the steel reservoir and the laying of pipes will, it is expected, be done by the end of Fasli 1321. Rs. 1,98,124 were spent on the work till the end of May 1911. The estimates of expenditure regarding the Water Works had to be revised and the revised estimates at present stand at Rs. 2,60,927.

POST OFFICES.

126. The number of Post and Telegraphic Offices in the State was the same as that of the last year, *viz*, 17 and 3.

MINT.

127. No Mint exists in the State.

GENERAL CONDITION OF THE PEOPLE.

128. The prices of food grains have gone down in all the Talukas, but to a very small extent. The prices of labour has risen in some places. There were no epidemics except plague which broke out in the Mangalwedha, Kuchi, Shirhatti, and Shahapur Talukas, doing greater ravages in the last named Taluka.

CHAPTER V.

129. Appendix XXII compares the receipts and expenditure of the State for the year 1909-10 and 1910-11 with explanations of increase and decrease.

130. The gross revenue of the year exclusive of Inam adjustments for the year under report is Rs. 10,06,656 against Rs. 10,53,352 for the last year.

131. The State is not in debt.

132. The invested captial of the State stands at Rs. 11,49,266 which is made up as follows:—

152. The total expenditure incurred in connection with the epidemic amounted to Rs. 126-6 only against Rs. 1192-0-2 of the previous year.

CHAPTER VII.

Public Instruction.

153. The number of State schools of all descriptions at the beginning of the year was 166 with 11,204 pupils. During the year under report 9 First Class Primary Schools (8 night schools and 1 Hindusthani School) were closed and 13 Second Class Primary Schools were opened (11 in Shahapur and 2 in Mangalwedha Taluka). The total number of schools at the end of the year was thus 170 with 11,104 pupils attending them. Appendix XXV gives the classification of the different schools with the particulars of attendance therein.

154. The number of indigenous schools during the year under report was 15 against the same number with 354 against 438 pupils in the last year.

155. The total number of schools of all sorts thus stood at 185 against 181 with 11,458 against 11,642 pupils at the end of the year under report. The number of vernacular schools has increased by 12 showing an increase of 122 pupils at the end of March 1911.

156. The percentage of pupils receiving instruction to the entire population is 5,04 against 5.1 of the previous year.

157. The Sangli High School sent up 17 students for the Matric and 3 for the School Final Examination against 21 and 5 respectively in the previous year ; the number passed being 6 and 1 against 17 and 3 of the last year.

158. The rates of fees in the Sangli High School were raised as follows:—

Old rates				New rates.			
Standards	Rs.			Standards	Rs.		
I, II & III	0	8	0	I and II	0	12	0
IV & V	0	12	0	III and IV	1	0	0
VI and VII	1	0	0	V & VI	1	4	0
				VII (S. F.)	1	8	0
				VII (Matric)	2	0	0

In spite of the increase in fees the number of students rose from 272 to 330.

159. Drawing is taught as an optional subject in all the classes in the High School and the F. G. A. V. School at Shahapur. The number of pupils learning drawing at the end of the year in both the schools was 413 including 1 out-sider. The High School sent up 21 students for the First Grade, 8 for the Second Grade and 10 for the Third Grade Examination of whom 11, 3 and 7 passed. The F. G. A. V School at Shahapur sent-up 27, 4 and 3 of whom 13, 0 and 2 got certificates at the respective examinations.

160. Physical education is well attended to. Lectures with the help of the Sanatan Dharm Series books continue to be given once a week in the Sangli High School.

161. The Educational Inspector, S. D. visited the Sangli High School in March last and the F. G. A. V. School, Shahapur, in September 1910.

162. The number of Girls' Schools remained the same, *viz*, 10. The number of girls on the rolls on 31st March 1911 was 928 against 946 of the last year. This together with 488 girls attending Boy's Schools carries the total of school-going girls to 1416 against 1541 of the last year.

163. The Hindusthani School at Mangalwedha being closed, there were only two Hindusthani Schools. Besides these five Hindusthani classes are attached to vernacular schools. The number of pupils attending these schools and classes was 222 against 256 of the previous year.

164. Rural Standards are taught in 123 schools with 5,060 pupils against 110 schools with 4,838 pupils of the last year.

165. The number of A. V. Schools was the same as that of the last year, *viz.* 5. The number on the rolls on 31st March 1911 was 277 against 287 of the last year.

166. The number of low caste schools remained the same, *viz.* 5. The attendance in these schools was 206 against 208 of the last year. Low caste boys and girls are admitted in some of the First and Second Class Schools. Their number in these schools was 403. The total number of low caste pupils receiving instruction was thus 611 against 712 of the last year.

167. There are five schools in the State which are designated the Sanskrit Schools and which give instruction in Vedic and Shastric lore. Their number is included in the number of vernacular schools. The number of scholars in these schools was 87 at the end of March 1911.

168. The total expenditure of the Educational Department amounted to Rs. 71,652 against Rs. 71,365 of the previous year.

169. The results of the Primary Education Extension Scheme are satisfactory. Thirteen new Primary Schools were opened during the year under report. The Taluka Educational Boards are doing good work. Compulsion was resorted to in 14 villages of the State.

CHAPTER VIII.

Miscellaneous

Printing Presses and Libraries.

170. There are two Printing Presses at Sangli, one belonging to the State and the other "the Chintamani Press" a privately owned concern. No news-paper is published in the State. One Wachanmandir (reading room) has been opened at Shahapur during the year under report. The number of Public Libraries is therefore 11. Their income and expenditure amounted

during the year under report to Rs 7,657 and Rs 7,200 against Rs 2,370 and Rs 1,824 respectively of the last year. These figures include the grant of Rs. 5,000 to the Sangli Library and an expenditure of nearly the same amount by that institution on the new building.

Destruction of Wild Animals.

171. Only one leapard was killed in the Shahapur Taluka.

172. There were 3 deaths from snake-bite against 5 of the last year.

Distruction of Prickly-Pear.

173. An area of 57 acres against 250 acres of the last year was cleared of prickly-pear during the year under report.

Fairs.

174. There are in all about 45 fairs held annually in the State. The principal of them are given below:—

1. The Fakir-swami Fair in Shirhatti which is held in Vaishakha (April, May.) Some 30,000 people assemble on this occasion and large purchases in bullocks, agricultural implements and bangles take place.
2. The Prabhu-Swami Fair at Terdal in Shravan (July, August). Some 10,000 people assemble and considerable trade in glass bangles takes place.
3. Parvatmalla Fair at Rabkavi in Shravan (July, August). It is mostly attended by Lingayats.
4. Peer Mardan Gaibi Fair (Urus) at Mangalwedha in Rajab (September, October). This is a Mahomedan Fair.

Railway.

175. The net earnings of the Sangli State Railway for the year ending 31st March 1911 amounted to Rs. 17,852. The total expenditure on the construction of the Railway has been Rs. 1,75,091. The investment has turned out a successful one as it has brought in an interest of 10.2 percent on the outlay during the year under report.

The State Cattle.

176. The subjoined table gives the particulars of the State Cattle.

Country ...	135	143	...	2	41	40
Total...	621	593	14	9	176	117

177. The expenditure incurred in maintaining the cattle during the year under report was Rs. 3,770 against Rs. 3,878 of the preceding year. The cattle farm at Karnal is making good progress. The number of cattle in the farm is 13 Hanam cows, 13 Sorti cows and 1 bull of each breed. There are 16 Hanam and 15 Sorti calves in the farm.

178. Fifty-three bullocks against 64 of the last year were sold during the year fetching Rs. 3,925 against Rs. 4,702 of the last year. Nearly 60 bulls are ready for sale.

There are 125 State camels against 119 of the last year. During the year under report 3 camels were sold fatching Rs. 235. The Department is under the charge of the Agricultural Inspector.

Locusts.

179. No locusts appeared in the State during the year under report.

State Assemblies.

180. The State Assembly has completed its third year. The third assembly was opened by the Chief. The proceedings of the assembly have been submitted to the Chief and will soon be published. The discussion was carried on by the members intelligently and many useful suggestions were made. The progress is somewhat slow as it is bound to be for some years to come.

Taluka Local Boards.

181. The newly constituted Local Boards are working satisfactorily.

Miscellaneous.

182. There are 7 Credit Co-Operative Rural Societies in the State. Capital has been collected and loans advanced. State aid to the amount of Rs. 2,900 has been given to 3 Societies, at Dodwad, Dudhondi and Digraj.

183. The Agricultural Farm at Sangli is being efficiently managed by Mr. M. G. Athalye, the Agricultural Inspector. The sugar-cane crop was this year treated with special fertilisers. Poona furnace was adopted in boiling juice, and its advantages explained to visitors. Samples of cotton, tobacco and turmeric from the State Farm won prizes in the Agricultural Exhibition at Belgaum. Seed of Broach and Varadi cotton was distributed largely amongst the Ryots of Mangalwedha and Miraj-Prant Talukas. A large quantity of special manures, such as Safflower Cakes and Ammonium sulphate was supplied to cane planters in the Kuchi Taluka. Steps were taken to popularize the English plough. Six ploughs were lent to the Ryots on nominal rent during the ploughing season. The Agricultural Inspector toured largely in Mangalwedha, Kuchi and Miraj-Prant Talukas. At Mangalwedha an Agricultural Association has been formed. The Agricultural Inspector also visited Allahabad and Belgaum Exhibitions.

Financial Condition.

184. The financial condition of the State can be gathered from the fact that after an allotment of Rs. 1,00,000 for the Chief's Khasgi and after an expenditure of Rs. 56,250 on Chief's marriage and of Rs. 60,927 on Sangli Water Works, the cash balance on the 5th June 1911 exclusive of cash belonging to Ganpati Sansthan and minors was Rs. 12,57,136 against Rs. 13,32,827 of the same date last year. This shows that the financial condition of the State is satisfactory.

185. In conclusion I am desired by the Chief to express his hearty thanks for the kind and sympathetic treatment and for the sound and valuable advice which he has received from you and from your assistant from time to time and which has proved highly useful to him during the first year of his administration.

I have the honour to be,

Sir,

Your most obedient servant.

C. P. BAPAT,

State Karbhari, Sangli.

Through—

The Assistant Political Agent,

S. M. Country.

State Karbhari's Office,
Sangli, 30th July 1912.

From

C. P. BAPAT, Esquire, B.A., LL.B.
State Karbhari, Sangli.

To

Major J. W. B. MEREWETHER,
Ag. Resident, Kolhapur and
Political Agent, S. M. C. States.

Sir

I have the honour, by direction of the Chief of Sangli, to submit the Annual Administration Report of the Sangli State for the Fasli year 1321 ending 5th June 1912.

CHAPTER I.

General and Political.

2. The State is divided into 6 widely scattered Talukas spread over four Collectorates of the Bombay Presidency, extending from the river Bhima on the North to the Tungbhadra on the South. It has an area of 1,112 square miles and a population numbering 2,27,195 according to the Census of 1911. The gross revenue of the State is Rs. 11,12,463 based on the average of the last five years.

3. The Sangli State does not pay annual tribute to Government or to any State. It has once for all ceded to Government, territory yielding in 1821 an annual rental of Rs. 1,35,000 in commutation thereof.

4. Shrimant Chintamanrao Dhundirao alias Appasaheb Patwardhan the Chief of Sangli is a Chitpawan Brahmin, aged 22. The Chief's wife Shrimant Soubhagyawati Saraswatibaisaheb is aged 20 and is the daughter of Mr. M. V. Joshi of Umaraoti. A daughter was born to the Chief on the 6th of March 1912. She is named Indumati Taisaheb.

5. Shrimant Vithalrao Bapusaheb, the Chief's younger brother successfully passed in the 1st part at the Mathematical Tripos in June 1911 and at the History Tripos this year. He spent his long vacation of 1911 at Tours in France and has acquired a good coloquial knowledge and accent of the French language. He has enjoyed good health during the year. After too hard and continuous work he required complete rest from brain work and has come

here on the 6th of July. In October next he will go to Messrs Wren and Gurneys Special Instructors for the I. C. S. to study specially for that Examination.

6. The happy event of the year was the visit of their Majesties to India for the Grand Durbar at Delhi. The Chief had the honour of being invited to attend the same.

The 12th of December 1912 was celebrated throughout the State in a befitting manner by illuminations, feeding of the poor and School children and distribution of medals. The King's proclamation was read all over the State at the prescribed time. A detailed report of the proceedings of that day has already been submitted to you.

7. Major E. O' Brien, the Assistant Political Agent, S. M. C. and Lt. Colonel F. W. Wodehouse, C. I. E., the Resident, Kolhapur and Political Agent, S. M. C. States, both paid their visits to the Sangli State during the year under report, the former in January 1912 and the lattter in February 1912.

CHAPTER II.

Administration of Land.

8. The original survey of the State was completed in 1880 and the Revision Survey in 1908. The present rates of Mangalwedha and Shahapur Talukas are to remain in force till 1912 and those of Miraj-Prant, Kuchi and Terdal till 1915 when the revised rates will be introduced. Revised rates have been introduced in the Shirhatti Taluka from 1321 Fasli.

9. There are 41 Inam and Sub-Saranjam villages in the State, of which there still remain 9 in which Survey Settlement has not been introduced. Survey Settlement has also not been introduced in one of the four Makta villages in the Shahapur Taluka.

10. Nearly 2 acres of waste land in the Miraj-Prant Taluka was taken up for cultivation during the year under report. There has been an increase of 692 acres in the cultivable land of the Shirhatti Talula, partly due to Revision Survey but chiefly to the Inam village of Chik-Malapur being surveyed (area 586 acres).

11. At the close of 1910 and 1911 there were 10 boundary disputes pending settlement. Three new disputes came on record this year, while two were settled. Of the 11 that remained 6 are between this State and the British Government and 5 between this State and other Native States.

12. The approximate land revenue demand according to the Jamabandi of the year amounted to Rs. 6,15,145 against Rs. 6,04,562 of the previous year. The total collections of the land revenue inclusive of the fluctuating revenue during the year were Rs. 6,52,471 against Rs. 6,24,463 of the preceding year. The arrears to be recovered amounted to nearly Rs. 84,339 against Rs. 1,07,767 at the end of the last year.

13. The following table shows the extent of cultivation during the year under report as compared with that of the last year:—

Talukas.	Total cultivable area.		Actually cultivated.		Taken up for cultivation.		Thrown out of cultivation.

16. During the touring season myself and the Assistant Revenue Officer between ourselves visited 4 of the Talukas in the State.

CHAPTER III.

17. Appendix II gives the laws in force in the State. No new enactments were introduced during the year under review.

Military.

18. There is no Military Force in the State.

Police.

19. The total strength of the Police Force in the State was 442 Foot Police and 35 Sowars as against 442 and 38 respectively in the last year. The total expenditure on account of its maintenance amounted to Rs. 80,186 as against Rs. 71,031 of the previous year. The increase is chiefly due to the cost of clothing supplied to the Police.

20. The Foot Police were distributed as follows:—

1	Employed in detection etc.	176
2	Jail, Lock-ups etc.	175
3	Employed on town duties	47
4	Employed in Courts	9
5	Employed as orderlies in offices ...	15
6	Reserve	20
	Total ...	442

21. The Sowars were employed on escorts and other miscellaneous duties.

22. The sub-joined table gives the distribution of the Force in different localities:—

No.	Name of Division.	Policemen.		Sowars.
		Armed.	Unarmed.

8	Shirhatti...	13	34	1
9	Thana Dodwad... ...	2	5	...
	Total.....	175	267	35

23. No extra Police were employed during the year under report.

24. Of the Police men 175 are armed with bored out Martini Henry Rifles, 242 with batons and 25 with swords.

25. Particulars as to the total strength, cost, etc., of the Police are given in Appendix IV.

26. During the year under report, 2 Sub-Inspectors, 6 Head Constables, 21 Constables and 4 Sowars in all 33 were departmently punished as against 2 Sub-Inspectors, 7 Head Constables, 38 Constables and 5 Sowars in all 52 in the previous year. Four Head Constables and 1 Constable were degraded for gross negligence against 3 Head Constables and 2 Constables in the previous year. One Head Constable, 10 Constables and 1 Sowar were dismissed for misconduct as against 4 Constables in the previous year. One Constable was judicially punished as against 1 Head Constable and 4 Constables of the previous year; and no Sub-Inspectors or Head Constables or Constables were suspended against 1 Sub-Inspector, 3 Head Constables and 2 Constables in the previous year. Two Constables were rewarded with promotion for their detective abilities against 3 in the previous year.

27. Out of the total Police Force, 416 against 408 of the last year, are able to read and write and 16 against 8 are under instruction.

28. The number of village Police was the same as in the previous year, viz, 238. They assisted the District Police in the detection and prevention of crime. Some of these work partly on service tenure and partly on remuneration in cash; and the remainder wholly on remuneration in cash.

29. The ratio of the Police to the area and that to the population are 1 to every 2½ miles and 1 to 514 souls.

30 The Drill Masters are performing their duties properly and the drill has much improved.

31. Two candidates appeared for the Police Higher Standard Examination, of whom none came out successful. No body appeared for the Lower Standard Examination.

32. During the year under report, 52 Police and 4 Sowars as against 52 and 10 of the last year, were under medicial treatment, the mortality being 7 against 4.

33. The results of the working of the Police are given in Appendices V, VI and VII. They are summarised below.

34. The total number of cases for disposal by the Police was 410 against 381 in the preceding year. Of these 189 were true cognizable cases, 97 were found not to be punishable by Criminal Courts; 22 were malicious complaints and the remaining 102 were under investigation at the close of the year. Out of these, 26 have been reported for being struck off the register.

35. Seven persons were prosecuted for making malicious complaints.

36. Of the true cognizable cases 144 against 147 of the preceding year were sent up for trial and 45 against 37 were undetected.

37. In connection with cognizable cases the Police arrested 261 against 210 persons in the last year, of whom 253 against 200 were sent up for trial. CHAPTER VII.

Public Instruction.

147. The number of State Schools of all descriptions at the beginning of the year was 170 with 11,104 pupils. During the year under report 3 new Second Class Schools were opened. The total number of schools at the end of the year was thus 173 with 11,070 pupils attending them. Appendix XXV gives the classification of the different schools with the particulars of attendance therein.

148. The number of indigenous schools during the year under report was 11 against 15, with 309 pupils against 354 pupils of the last year.

149. The total number of schools of all sorts thus stood at 184 against 185 with 11,379 against 11,458 pupils, at the end of the year under report.

150. The percentage of pupils receiving instruction to the entire population is 4·6 against 5·04 of the previous year.

151. The Sangli High School sent up 21 students for the Matric and 9 for the School Final Examination against 17 and 3 respectively in the previous year; the number passed being 17 and 9 against 6 and 1 of the last year.

152. The number of students has risen from 330 to 345 inspite of the increase in fees.

153. The number of A. V. Schools was the same as that of the last year, viz, 5. The number of the rolls was 251 against 277 of the last year.

154. Drawing is taught as an optional subject in all the classes in the High School and the F. G. A. V. School at Shahapr. The High School sent up 24 students for the First Grade, 12 for the Second Grade and 3 for the Third Grade Examination, of whom 11, 2 and 2 passed. The F. G. A. V. School at Shahapur sent up 14, 4 and 1 of whom 5, 3 and 1 got certificates at the respective examinations.

155. Physical education is well attended to. Lectures with the help of the Sanatan Dharm Series Books continue to be given once a week in the Sangli High School.

156. The Educational Inspector, S. D. visited the Sangli High School in October last and the F. G. A. V. School, Shahapur, in September 1911.

157. The number of Girls' Schools remained the same, viz, 10. The number of girls on the rolls on the 31st March 1912 was 975 against 928 of the last year. This together with 412 girls attending Boys' Schools carries the total of school-going girls to 1,387 against 1,416 of the last year.

158. The Hindusthani Schools and Classes remain the same as in the last year. The number of the pupils attending these schools and classes was 227 against 222 of the last year.

159. Rural Standards are taught in 124 schools with 5,291 pupils against 123 schools with 5,060 pupils of the last year.

160. The number of low-caste schools remained the same, viz, 5. The attendance in these schools was 213 against 206 of the last year.. Low-caste boys and girls are admitted in some of the 1st and 2nd class schools. Their number in these schools was 407. The total number of low-caste pupils receiving instruction was thus 620 against 611 of the last year.

161. There are five schools in the State which are designated the Sanskrit Schools and which give instruction in Vedic and Shastric lore. Their number is included in the number of Vernacular Schools. The number of scholars in these schools was 80 against 87 at the end of the year.

162. The total expenditure of the Educational Department amounted to Rs. 76,994 against 71,652 of the previous year.

163. Plague visited almost all the Talukas of the State and in many villages it lingered to a considerable longer period. Two teachers and 146 scholars fell victims to the disease. Scarcity amounting in some cases to famine conditions was prevalent in some of the Talukas. Compulsory education in most of the villages when it was introduced last year had therefore to be stopped. The number of students has on account of these causes fallen of shortly but it is hoped that the original level will be reached when the normal conditions of the season are attained. The Taluka Educational Boards are doing good work.

CHAPTER VIII.

Miscellaneous.

Printing Presses and Libraries

164. There are 2 Printing Presses at Sangli, 1 belonging to the State and the other " The Chintamani Press " a privately owned concern. No news-paper is published in the State. Destruction of wild animals.

165. Only one leopard was killed in the Shirhatti Taluka; 12 wild pigs were killed in Terdal Taluka and 1 wolf was killed at Mangalwedha.

166. There were 4 deaths from snake bite against 3 of the last year.

Destruction of prickly-pear.

167. An area of about 54 acres against 57 acres of the last year was cleared of prickly-pear during the year under report.

Fairs.

168. There are in all about 42 fairs held annually in the State the principal of them are given below:—

1. The Fakir-Swami Fair in Shirhatti which is held in Vaishakha (April, May). Some 30,000 people assemble on this occasion and large purchases in bullocks, agricultural implements and bangles take place.

2. The Prabhu-Swami Fair at Terdal in Shravan (July, August). Some 10,000 people assemble and considerable trade in glass-bangles takes place.

3. Parvatmalla Fair at Rabkavi in Shravan (July, August). It is mostly attended by Lingayats.

4. Peer Mardan Gaibi Fair (Urus) at Mangalwedha in Rajab (September, October). This is a Mahomedan fair.

Railway.

169. The net earnings of the Sangli State Railway for the year ending 31st March 1912 amounted to Rs. 20,360. The total expenditure on the construction of the Railway has been Rs. 1,75,091. The investment has turned out a successful one as it has brought in an interest of 11·6 percent on the outlay during the year under report.

The State Cattle.

170. The sub-joined table gives the particulars of the State Cattle:—

Breed.	Cows (heifers).		Bulls (stallions)		Bulls(castrated)

Country ...	143	135	2	3	40	35
Total...	593	627	9	11	117	203

171. The expenditure incurred in maintaining the cattle during the year under report was Rs. 11,149 inclusive of Rs. 8,000 on account of extra fodder purchased againt Rs. 3,770 of the preceding year. The number of cattle in the farm is 15 Hanam cows, 5 calves and 1 bull: and 15 Sorti cows, 8 calves and 1 bull.

172. Only 5 bull calvas were sold during the year against 64 of the last year. There are about 79 saleable bull calves. The camel herd contains 120 heads against 125 of the last year.

Locusts.

173. No locusts appeared in the State during the year under report.

State Assemblies.

174. The State Assemblies did not hold their sittings during the year under report.

Taluka Local Boards.

175. The Local Boards are working satisfactorily.

Miscellaneous.

176. There were 7 Co-operative Rural Societies in the State. Five more were registered in the year under report. The registration of 1 Society was concelled. State aid to the amount of Rs. 2,200 has been given to three Societies.

177. Broach and Kumtha cotton were grown in the Agricultural Farm at Sangli and have given excellent results. Samples of both these cottons were sent for valuation to Messrs Tata and Sons, Bombay. Their valuations are encouraging. The seeds of both these varities have been preserved for distribution and further cultivation. Cotton seeds of Broach and Kumtha varieties were distributed to cultivators in Miraj-Prant Taluka and seeds of big Japanese and Spanish-ground-nuts were supplied to the cultivators in Mangalwedha Taluka through the local agricultural Association. Special manures, such as, ammonium-sulphate and safflower cakes are becoming popular and a large quantity of both was supplied to cane-

planters in Kuchi and Miraj-Prant Talukas. The work of an improved type of cane-crushing mill made at the Nahan Foundry Punjab was demonstrated in Miraj-Prant and Shahapur Talukas. There are two Agricultural Associations, 1 at Mangalwedha and the other at Shirhatti.

Financial Condition.

178. After an expenditure of more than a lac of rupees on account of the Delhi Durbar and Rupees 25,000 on the Sangli Water Works, the cash balance on the 5th of June 1912, exclusive of the cash belonging to the Ganpati Sansthan and the minors was Rs. 13,61,395 against Rs. 12,57,137 on the same date last year. This shows the sound condition of the finances of the State.

179. In conclusion I am directed by the Chief to express his heart-felt and sincere thanks for the kind treatment and sound and helpful advice he has received from you and your Assistant from time to time on matters connected with the administration of the State.

I have the honour to be,
Sir,
Your most obedient servant,

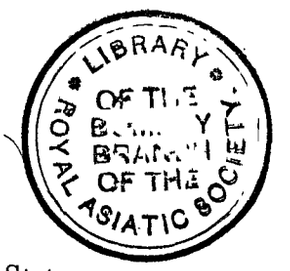
No. 1775 of 1914.

State Karbhari's Office,
Sangli, 29th July 1914.

From

Rao-Bahadur,
M. K. Kumthekar, B.A.,
State Karbhari, Sangli.



To

Lieut-Colonel F. W. Wodehouse, C. I. E.,
Resident, Kolhapur, and Political Agent,
S. M. C. States.

Sir

I have the honour, by direction of the Chief of Sangli, to submit the Annual Administration Report of this State for the Fasli year 1323, ending 5th June 1914.

CHAPTER I.

General and Political.

2. The State is divided into 6 Talukas, very widely scattered and spread over four Districts of the Bombay Presidency, from the river Bhima on the North to the Tungbhadra on the South, making administration costly and supervision difficult. It has an area of 1,112 square miles and a population of 2,27,280 according to the Census of 1911. The gross revenue of the State is Rs. 10,64,220 based on the average of the last 5 years.

3. The Sangli State does not pay annual tribute to Government or to any other State. It has, once for all, ceded to Government a territory yielding, in 1821, an annual revenue of Rs. 1,35,000 in commutation of service.

4. The Chief of Sangli, Shrimant Chintamanrao Dhundirao alias Appasaheb Patwardhan, is a Chitpawan Brahmin; his age is 24; he is married and has a daughter, Indumati Tai Saheb by name. She is two years old.

5. Kumar Shri Vithalrao Bapusaheb, brother of the Chief of Sangli, has been, as mentioned in the last report, studying for the I. C. S, for which he is due in August next. He kept up his terms with Messrs Wren and Gurneys, Special Instructors for the I. C. S. But having completed one year's course with them, he has again joined Cambridge where he has been studying for the same. As mentioned already, he has already become a graduate of Cambridge, having taken his degree with honours in the tripos of History. He will appear for the I. C. S. Examination in August next if he finds he is well prepared for it. He may, as he can, appear for it in the month of August 1915, if he finds he is not prepared this year to his own satisfaction.

134971

6. The 12th of December last, the Coronation day, was celebrated throughout the State when all Offices and Schools were closed and sweets were distributed to school boys and girls. In fact the day was observed as a holiday.

7. Colonel F. W. Wodehouse C. I. E., the Resident Kolhapur, and Political Agent, S. M. Country States, paid a visit to Shahapur where he was in Camp for some time in the month of February last. Major E. O. Brien, Assistant Political Agent, S. M. Country, paid a visit to Shirhatti and stayed there for some time in February and March last; he visited many villages of that Taluka. He also paid a visit to Shahapur in March 1914. In May last he paid a visit to Sangli when he saw the Dispensary, Jail and the Vernacular Schools.

CHAPTER II.

Administration of Land.

8. The Original Survey of the State was completed in 1880 and the Revision Survey in 1908. Revised rates were introduced into the Shirhatti Taluka in November 1910. The term of the original guarrantee in the Mangalwedha and Shahapur Talukas being over later on, revised rates were announced in those two Talukas before the end of the Fasli year 1322. The original rates in the Miraj-Prant, Kuchi and Terdal Talukas will remain in force till the end of the year 1915, when the revised rates will be introduced into those Talukas also, if the proposals are ready by that time.

9. There are in all 41 Inam and Saranjam villages in the State. Survey Settlement has been introduced into all these villages, excepting 9 and one of the four Makta villages in the Shahapur Taluka. The rest enjoy the benefit of the Survey.

10. Nearly 50 acres of waste (uncultivable) land in Kuchi Taluka and 1 acre in Shirhatti Taluka were taken up for cultivation during the year under report. Nearly 175 acres of cultivable land in Mangalvedha Taluka were appropriated for tanks.

11. At the close of the year 1912-13 there were 10 boundary disputes pending settlement. In the course of the year 2 new disputes cropped up making a total of 12. Of these 12 disputes one was settled during the year. Of the 11 cases remaining on hand, six are between this State and the Government and 5 between this State and other States.

12. The approximate Land Revenue demand according to the Jamabandi of the year 1913-14 amounted to Rs. 6,99,783 as against Rs. 6,33,611 of the previous year. The increase in the Jamabandi is due to the introduction of revised rates in the Shahapur and Mangalwedha Talukas. The total collections of the land revenue inclusive of the fluctuating revenue, during the year under report, amounted to Rs. 6,18,498 as against Rs. 6,40,697 in the preceding year. The decrease is chiefly due to the small collections in the Mangalwedha Taluka. The arrears, outstanding at the end of the year under report amounted to Rs. 1,72,860, as against Rs. 87,993, that remainined outstanding at the commencement of the year under report. The fall in the actual collections and the rise in

the outstanding balance were due, as usual, to the same cause. In the year under report Mangalwedha got very insufficient rain-fall. The consequence was that in several villages there were no crops. The State had, therefore, to grant suspensions of Land Revenue which has swelled the amount of arrears. They will be recovered in part at any rate in the course of this year if the state of the crops and the season in general make it possible.

13. The following table shows the extent of cultivation during the year under report as compared with that of the last year:—

Talukas.	Total cultivable area.		Actually cultivated.		Taken up for cultivation.		Thrown out of cultivation.	
	During		During		During		During	
	1912-13	1913-14	1912-13	1913-14	1912-13	1913-14	1912-13	1913-14.

Total.....	6,07,741	6,07,617	6,03,023	6,03,748	928	1,140	481	291

14. With the exception of the Mangalwedha Taluka, it was not, fortunately, found necessary to grant suspensions in any of the other Talukas, which were much more lucky in the matter of rain fall and crops in the year under report.

15. The sub-joined table shows the amount of pressure which had to be exercised in the recovery of Land Revenue:—

Talukas.	Number of notices issued.	Amount collected after the issue of notices.	No. of cases in which property was attached.	Cases in which property attached was sold.				Total amount recovered by sale of property.

16. In the year under report I performed the Jamabandi of the Talukas of Miraj-Prant and Shirhatti, having performed that of Mangalwedha and Terdal last year. This year I again paid a vist to Mangalwedha where on account of the failure of rains famine conditions were prevailing. I visited, while there, the important villages in all the parts of the Taluka with a view to see personally what the state of the crops and the people really was. Having made a thorough inspection of all these I made recommedations to the Chief Saheb with regard to measures necessary for giving relief to the people, which he was kindly pleased to sanction and which will be described in detail in another place. The Assistant Revenue Officer performed the Jamabandi of all the other Talukas. He visited for this purpose almost all the Talukas, such as Kuchi, Mangalwedha, Terdal, Shahapur and Shirhatti and made an inspection of all the offices of Mamlatdars in those places. He in course of this tour and inspection inspected many villages. Thus in the course of the year under report there was no Taluka or part of the State which was not inspected either by me or the Assistant Revenue Officer. Mangalwedha and Shirhatti were visited by both of us.

CHAPTER III.

Protection.

17. Appendix II gives a list of the Laws and Acts that are in force in the State.

Military.

18. There is no Military Force in the State.

Police.

19. The total strength of the Police Force in the State was the same as that in the last year, *i. e.* 455 Foot Police and 35 Sowars. The total expenditure on account of the maintenance of the Force amounted to Rs. 75,255, as against Rs. 70,706 in the last year. The excess is due to the supply of uniforms to the Force during the year under report.

20. The Foot Police were distributed as follows:—

1	Employed in detection etc.	...182
2	Jail, Lock-ups etc.... ...	...175
3	Employed on Town duties...	... 49
4	Employed in Courts ...	... 9
5	Employed as orderlies in offices	... 20
6	Reserve	... 20
	Total...	455

21. The Sowars were employed on escort and other miscellaneous duties.

22. The Sub-joined table shows the distribution of the Force according to Talukas.

No.	Name of Division.	Policemen.		Sowars.

23. Two Punitive Police Posts, one at Adarkatte in the Shirhatti Taluka consisting of a Head Constable and 3 Constables. and the other at Nandre in the Miraj-Prant Taluka, consisting of 1 Head Constable and 5 Constables, have been established. They were made necessary by the unsatisfactory conduct of the people of those villages.

24. Of the Policemen, 175 are armed with bored out Martini Henry Rifles 256 with batons, and 24 with swords.

25. Detailed information regarding the total strength, cost, etc, of the Police Force, is given in Appendix IV.

26. During the year under report 9 Head Constables, 25 Constables and 4 Sowars, in all 38 were departmentally punished, as against 1 Sub-Inspector, 12 Head Constables, 47 Constables and 15 Sowars, in all 75 in the previous year. One Head Constable and 7 Constables were degraded for gross neglect of duty, as against 4 Constables in the previous year. Ten Constables were dismissed for misconduct, as against 6 Constables and one Sowar, in the previous year. Two Constables were judicially punished, as against one Head Constable and one Constable in the previous year. As regards rewards for good service, it may be stated that 7 Constables were given promotions for satisfactory work in detection of offences, as against 4 in the previous year.

27. Out of the whole Police Force, 366 against 400 of the last year, are able to read and write, and 25 against 20 are under instruction.

28. The number of village Police was the same as in the previous year, viz, 238. They assisted the District Police in the detection and prevention of crime. Some of these work partly on service tenure and partly on remuneration in cash and the remainder wholly on remuneration in cash.

29. The ratio of the Police to the area and that to the population are 1 to every 2·4 miles and 1 to 499 souls.

30. The Drill Masters are performing their duties properly, and the drill has much improved.

31. No candidate appeared for the Police Higher Standard Examination. One candidate appeared for the Police Lower Standard Examination, but he was unsuccessful.

32. During the year under report, 56 Police and 7 Sowars, as against 65 Police and 3 Sowars in the last year, were under medical treatment, the mortality being 6 against 11.

33. The results of the working of the Police are given in Appendices VI and VII, which are summarised as below:—

34. The total number of cases for disposal by the Police was 342, as against 413, in the previous year. Of these, 144 were cognizable cases, 72 were found not to be punishable by Criminal Courts, 11 were false and malicious complaiants, and the remaining 115 were under investigation at the close of the year. Out of these, 49 have been reported for being struck off the register.

35. Six persons were prosecuted for making malicious complaints.

36. Of the 144 cognizable cases, 107 against 108 of the preceding year were sent up for trial and 37 against 59, remained undetected at the close of the year.

37. For cognizable offences, the Police arrested 188 persons against 172 arrested in the last year; out of these 177, against 158, were sent up for trial at the close of the preceding year. The total number of persons tried in the year was 183, of whom 126 were convicted, 39 discharged or acquitted and only 18 remained under trial, against 106 convicted, 58 discharged or acquitted, and 6 that remained under trial in the preceding year.

38. The percentage of persons convicted to persons tried was 68·8 against 62·3 in the last year which will appear to be satisfactory.

39. The value of the property stolen and recovered during the year under report was Rs. 12,909 and Rs. 9,056 against Rs. 16,947 and Rs. 8,695 in the preceding year, giving a percentage of 70·15 against 51.3 that was in the last year.

40. Four murder cases were reported during the year under report; out of these, two were sent up for trial. In addition to these, there were three cases for trial from the preceding year. All these cases involved 21 accused persons. Out of this number 12 were convicted and 5 were acquitted; 4 persons, all connected with one case remained under trial at the close of the year under report.

41. Two cases of culpable homicide not amounting to murder, with 8 accused in them were reported during the year. These with one case and 2 accused from the preceding year, came up for trial for the year under report. Out of these, two cases involving 3 accused persons were disposed of; one case, with 7 accused in it was pending trial at the close of the year.

42. The number of the cases of suicide reported in the year was 25; 12 males and 13 females were concerned in them. There were 70 accidental deaths; 37 males and 33 females died on account of such causes as against 84 in the preceding year.

43. Fortunately there was no case of dacoity reported during the year under report.

44. Similarly there was no case of robbery reported in the year under report; there was, however, one case for trial in this year from the last year. It was tried and the four accused involved in it were all acquitted.

45. During the year under report, property worth Rs. 6,306 against Rs. 5,391 was destroyed accidentally by fire and that worth Rs. 1,048 against Rs. 2,472 in the previous year by incendiarism.

46. Twelve bad characters were dealt with under Sections 109 and 120 of the Criminal Procedure Code in the year under report against 5 in the last year; of these 10 were convicted.

Criminal Justice.

47. The number of Criminal Courts at work in the State in the year under report was 25. The details of their work are given in appendix VIII.

48. The number of offences that came up for trial before these courts in the year under report was 581, with 1333 accused persons against 608 cases with 1297 persons involved, in the preceding year. Of these, the Police arrested 177 against 158 on their own initiative; 139 against 109 were arrested upon warrants and 984 against 996 arrested in obedience to summonses; 32 against 31 surrendered themselves for trial; one person against 3 in the last year was arrested in the presence of the Magistrate.

49. Including 31 persons remaining over undisposed of in the last year, the total number of persons that came up for trial before these Courts was 1364 as against 1352 in the last year. Of these, 387 against 470 were discharged and 624 against 596 were acquitted; 233 against 243 were convicted; 44 against 32 were committed to the Courts of Sessions; 2 died while under trial; and 74 against 31 of the last year were awaiting trial at the close of the year.

Courts of Sessions.

50. Of these there are two; the Huzur Court and the District Court. The Huzur Court, which takes up cases punishable with death or transporation for life had before it in the year under report 6 cases and 20 accused persons, as against 8 cases and 12 persons in the preceding year. Of these, 14 were convicted and 6 acquitted. The other Sessions Court which tries offences not punishable with death had before it 11 cases and 24 accused persons for trial in the year under report, as against 6 cases with 16 accused persons in the previous year. Of these 15 were convicted and 9 acquitted.

51. The sentences passed by the Huzur and other Sessions Court, on conviction, were as follows:—

Civil Justice.

56. The number of Civil Courts working during the year under report was the same as in the preceding year, *viz.* 6. Their pecuniary and territorial jurisdictions remain the same. The work done by these Courts is given in Appendix X and XI. It may be remarked here that the work of these Courts continues to be

satisfactory. The nubmber of suits filled and disposed of during the year under review, as contrasted with that of the preceding year, is given below:—

Year.	Opening balance.	Filed during the year.	Total.	Number disposed of.	Balance at the end of the year.
1912–13...	583	1,281	1,864	1,301	563
1913–14...	563	1,319	1,882	1,396	486

57. Of the suits filled during the year, 336 related to immoveable property, 929 to money transactions and 54 to other rights, as against 319, 905 and 57 respectively in the last year. If these suits were classified according to the value of property involved, it would appear that 791 were for amounts below Rs. 100, 419 were for amounts between Rs. 100 and Rs. 500, 67 for amounts between Rs. 500 and Rs. 1,000, 37 for amounts between Rs. 1,000 and Rs. 5,000 and 5 for over Rs. 5,000. The money value of suits relating to immoveable property was Rs. 1,08,915 against Rs. 86,959, and that of those relating to money transactions was Rs. 1,59,193 as against Rs. 1,70,164 in the preceding year.

58. The value of suits filled during the year under report was Rs. 2,90,398 against Rs. 2,71,713 and the value of suits disposed of was Rs. 3,64,399 against Rs. 2,90,915 in the last year.

59. Of the original suits disposed of, 495 against 499 were contested, 677 against 603 were exparte, 115 against 116 were compromised, 100 against 72 were struck off the file and 9 against 11 were otherwise disposed of. The average duration of suits was 9 months and 17 days against 8 months and 2 days of the last year.

60. In addition to the regular suits disposed of by the several subordinate courts, 185 Miscellaneous Applications were dealt with by them against 172 in the last year.

Appellate Work.

61. The number of Civil Appellate Courts was the same as that in the last year, *viz.* 2, the Huzur Court and the Nyayadhish Court. The total number of appeals for disposal before these courts, including the balance from the previous year, was 413 against 432. Of these, 265 against 313 were disposed of, leaving a balance of 148 against 119 of the previous year.

62. Appendix XII shows the disposal of these appeals in the year under report and in the preceding year.

63. The longest duration of appeals in the Huzur Court was 4 years and 8 months and 5 days as against 4 years and 7 months, and the shortest duration was 2 months and 25 day as against 1 month and 18 days in the previous year.

64. The longest duration of appeals in the Nyayadhish Court was 2 years

and 5 months against 1 year and 10 months, and the shortest duration was 24 days against 24days in the preceding year. Besides the regular appeals 34 miscellaneous applications were heard and disposed of by the Nyayadhish Court.

Execution of Decrees.

65. The following statement shows the aggregate number of applications for execution filed and disposed of by the several courts during the year as compared with those disposed of by the several Courts in the previous year:—

Year.	Opening balance.	No. filed.	Total.	No. disposed of.	Closing balance.
1912-13	363	1248	1611	1167	444
1913-14	444	1086	1530	1138	392

66. Of the remaining undisposed of applications 123 are below 6 months, 89 below 12 months and 180 more than 1 year old, against 155,188 and 101 respectively, in the last year.

67. The value of applications for execution registered during the year under report was Rs. 2,81,431 against Rs. 3,72,061 in the preceding year and the value of applications disposed of was Rs. 3,62,129 against Rs. 3,82,039 in the last year. The amount of recoveries by execution was Rs. 83,377 against Rs. 50, 394 of the last year and the amount recovered by decree-holders without the intervention of the Court was Rs. 88,836 against Rs. 10,454 of the preceding year.

68. The receipts during the year under review from all sources including stamps, process fees, etc. were Rs. 41,931-14-3 against Rs. 41,604-3-7 in the last year and the expenditure on all heads was Rs. 19,194-5-4 as against Rs.19,641-6-0 in the preceding year. The net balance in favour of the State is Rs. 22,737-8-11 against Rs. 21,962-13-7 in the preceding year.

Mamlatdars Courts Act.

69. During the year under report the Mamlatdar's Courts including that of the Dowad Vahiwatdar, disposed of 50 cases, as against 77 in the last year.

Extradition.

70. During the year under report 14 persons, against 13 in the last year, were obtained by Extradition from the British Government and 6 against 1 from Native States. Of the 20 persons so obtained 8 have been convicted, 2 acquitted, 3 handed over for trial to the First Class Magistrate, Belgaum, on the certificate of the Resident of Kolhapur and Political Agent, S. M. C. States, and 7 remained pending trial in State Courts.

Fifteen persons were surrendered to the British Government during the year under report.

Jails.

71. There is one Central Jail at Sangli and 7 Lock-ups at Taluka Stations, including those at Mhaisal and Dodwad.

Central Jail.

72. The Central Jail is situated within the old Fort at Sangli. The accommodation is quite sufficient for the number of prisoners that are generally there. The whole building is well lighted, well ventilatated and well guarded.

Convicted Prisoners.

73. One hundred and six prisoners against 104 were admitted into the Jail during the year under report. These together with 69 prisoners remaining over at the close of the last year bring up the total to 175 as against 176 in 1912-1913. Of these, 76 against 94 were released in the course of the year on the expiry of the sentences, 7 against 12 were released on appeal, one was transferred to British Authorities for trial, one, a young girl, was given over to Poona Panch Howd Mission, one was left off under Criminal Procedure Code Section 401, 2 were let off under the Criminal Procedure Code Chapter XIII and 87 against 69 remained in Jail at the close of the year under report.

74. Out of the total number of prisoners admitted during the year under report, the number of those sentenced for periods not exceeding 6 months was 70 against 69, none was sentenced to whipping; 2 against 5 were sentenced to fine only, and 34 against 27 were sentenced to longer terms imprisonment.

75. The number of Jail offences was nil during the year under report.

76. The subjoined table shows the different diet scales in force in the Sangli State.

77. The scale for females, simple imprisonment and under trial prisoners is the same as given above, except that they get 19½ ozs of flower, 3 ozs. of dal and

6 ozs of vegetables. Curds were given in the month of May. If the simple imprisonment convicts choose to work, they are given the full scale, but in the year under report there were none of that description.

Under-Trial Prisoners.

78. There were 80 under-trial prisoners against 70 in the last year. Of these 62 against 38 were convicted, 15 against 25 were acquitted or discharged, and only 3 remained under trial at the close of the year.

Civil Prisoners.

79. Four civil prisoners against 3 were admitted into the jail, of whom 3 were released and 1 remained undischarged at the close of the year.

Other Particulars.

80. The total expenditure on the Sangli Jail during the year under report amounted to Rs. 9,021 against Rs. 8,321 in the last year. The annual cost per head on account of the dietary charges came to Rs. 65 against Rs. 62 and the total annual cost per head amounted to Rs. 119 against Rs. 118 of the last year. The increase in cost is mainly due to the rise in prices that took place in the year under report. This amount does not take into account the charges of the guard supplied by the Police.

81. Mail convicts sentenced to hard labour were given fully penal tasks according to their state of health and capacity for work. Female convicts were, as usual, employed in grinding and winnowing grain, and spinning and twisting fibres.

82. The jail factory turned out articles worth Rs. 1,008 in 1323 against Rs. 1,030 in 1322 Fasli and it sold articles worth Rs. 1,146 against Rs. 1,025 in the preceding year. These figures represent only the cost of raw materials used and do not take account of the labour of prisoners. The Factory has two Japanese looms, six hand looms and two verticle looms in good working order.

83. The produce of the jail garden amounted to Rs. 376 against Rs. 292 of the last year. The rise is due partly to higher prices and partly to larger produce from garden.

84. The health of the prisoners was generally good. In all 120 prisoners were under medical treatment during the year. Of these 117 were cured and 3 remained under treatment at the close of the year.

85. The remission system is working well. Out of 76 prisoners released during the year, 18 had obtained the benefit of that system.

86. The total amount realised on account of jail labour was Rs. 1,464 as against Rs. 1,334 in the previous year. The sources from which the amount was realised are as follows:—

Rs.	144	on account of factory labour
„	418	„ Keeping clean the Wada compound.
„	172	„ Grinding charges.
„	760	„ Miscellaneous labour.
Rs.	1,464	

Lock-ups.

87. In the several lock-ups there were at the beginning of the year under report, 12 under trial prisoners and 4 convicts. During the year under report 143 against 159 under trial prisoners and 73 against 81 convicts were admitted, giving a total of 155 and 77 respectively against 167 and 89 for the last year. At the close of the year there remained in the lock-ups 11 under trial prisoners; there were no convicts there.

Registration.

88. The details of the work done by the Registration Department are given in Appendix XIV. The number of documents presented for registration during the year under report was 3,670 against 3,068, in the last year, making with the last year's balance of 55 a total of 3,725. Of these 3,699 against 3,116 were registered, 11 against 11 were refused registration and 15 against 55 remained unregistered at the close of the year. The total value of documents registered during the year was Rs. 13,73,469 against Rs. 11,22,713 in the previous year.

89. The receipts from and expenditure on account of the Registration Department amounted respectively to Rs. 20,024 and Rs. 1,119, against Rs. 16,583 and Rs. 990 in the last year, leaving a balance, in favour of the State, of Rs. 18,905 against Rs. 15,593 in the previous year. The increase is due to the larger number of documents registered in the year under report.

Municipalities.

90. Information regarding receipts and expenditure of the Municipalities in the State is given in Appendix XVI. It may be noted here that they amounted to Rs. 58,613 and Rs. 57,754 respectively against Rs. 54,777 and Rs. 56,784 in the previous year. The closing balance of all the Municipalities, amounted on 31st March 1914 to Rs. 39,128.

91. The arrears out-standing at the close of the year amounted to Rs. 18,161 as against Rs. 16,255 at the end of the last year. The rise in this figure was due to to rise in prices and scarcity prevailing in the State.

92. The principal source of income of the various Municipalities is house-tax; octori is levied at Mangalwedha and Rabkavi only. The receipts from it amounted to Rs. 1,306 at Mangalwadha and to Rs. 1,215 at Rabkavi. The Octroi revenue at Shahapur has been taken over by the State and a fixed annual grant of Rs. 2,000 is given to it instead.

93. The receipts of the fees on the sale of cattle at Sangli, amounted to Rs. 2,500 in the year under report as against Rs. 2,601 in the last year. The fall is slight and does not deserve notice.

94. Of the Municipalities in the State those at Sangli and Shahapur enjoy the right of election, while the rest have their councillors nominated by the Chief Saheb. The Municipality at Sangli also enjoys the privilege of a non-official President nominated by the State.

Ward's Estates.

95. At the beginning of the year under report there were 56 minors with 42 estates under the care of the State. Ten minors with 9 estates against 20 minors with 12 estates of the previous year came under the State management during the year, making a total of 66 minors and 51 estates. During the year under report 3 estates were handed over to 3 owners on their attaining majority; and 1 estate was handed over to the certified guardians.

96. At the end of the year under report there remained under the State management 47 estates owned by 60 minors against 42 estates and 56 minors of the last year. Particulars of these estates are given in Appendix A.

97. The opening and closing balance of minor's estates for the year under report were Rs. 4,46,993 and Rs. 5,29,522 respectively as against Rs. 3,94,489 and Rs. 4,46,993 in the last year. Of the closing balance Rs. 4,87,500 are invested in Government securities, Rs. 2,525 are deposited in Postal Savings Banks, Rs. 36,193 are in Pathak Treasury and the remaing Rs. 3,304 are kept with the several Vahiwatdars to enable them to meet them the current expenditure of the different minors.

98. The income of these estates, as realised in the year, consisted mainly of the following items:—

		Rs
1	Rent of lands	24,021
2	Interest on loans	27,610
3	Recovery of debts	24,150
4	Sale proceeds of ornaments etc.	23,778
5	House rent..	1,200
6	Other mis., receipts (inclusive of Rs 67,000 by sale of Govt. Securities)	1,07,805
	Total.....	2,08,564

99. The aggregate money value of the minors' estates amounts to Rs. 6,69,808. It is made up as follows:—

		Rs
1	Immoveable property (lands) measuring 2,397 acers, 35 gunthas assessed @ Rs 5,420	71,357
2	Moveable property, including bonds, personal loans, ornaments etc.....	68,929
3	Cash, including Govt. Securities and deposits in Postal Savings Banks...	5,29,522
	Total.....	6,69,808

100. The sub-joined table classifies the 47 estates in regard to their annual income:—

Not exceeding Rs. 50.	Above Rs. 50 but not exceeding Rs. 100.	Above Rs. 100 but not exceeding Rs. 500.	Above Rs. 500 but not exceeding Rs. 1,000.	Above Rs. 1,000 but not exceeding Rs. 5,000.	Above Rs. 5,000 but not exceeding Rs 10,000.	Total.
6	4	22	4	8	3	47

101. Out of 60 minors 5 are girls who are all non-Brahmins; only one of them attends school.

102. Of the 55 boy-minors, 48 attend schools; 4 are below age, and 3 follow their respective family avocations.

103. The minors' estates are under the management of the Nyayadhish, who exercises a very careful supervision over persons and their estates and takes much personal interest in them in all respects. In the course of the year he went round and met all the minors, and made personal inquiries about their well-being and the administcation of their estates. In short the minors and their estates are well looked after by the State, under whose management they show much improvement.

CHAPTFR IV.

Production and Destribution.

Weather and Crops.

104. Appendix XVII gives figures showing rain-fall for all the Talukas of the State.

105. The rainfall in all the Talukas was barely sufficient, but in Mangawedha where it was very insufficient, the result was that the crops suffered much and there prevailed in the Taluka great scarcity, though not a regular famine.

106. Appendix XVIII compares the prices of food grains in the year under report with those of the previous year.

107. The wages of skilled and unskilled labour ranged respectively from 8 annas to 1 rupee and 3 annas to 8 annas per day. It is to be noted that though at Mangalwedha great scarcity prevailed, the wages did not show an appreciable fall. They remained almost as high as before.

Forests.

108. The area of the State Forests at the end of year was the same as that in the last year, *viz.* 60,679 acres.

109. The receipts and expenditure of the Forest Department for the year under report amounted to Rs. 21,678 and Rs 9,805, as against Rs. 17,132 and

Rs. 13,061 respectively in the last year. The rise in receipts is chiefly due to larger sale of sandal-wood and the high price it fetched.

110. There are two small Forest Nurseries in the Shahapur Taluka; one is at Godihal and the other at Basankol. In the Nursery at Godihal very useful plants are reared.

111. The number of forest offences detected during the year under report was 5 against 3 in the last year. One of these was enquired into by the Forest Officer, one was committed to the Magistrate's Court and the offenders punished; the remaining 3 have been under investigation.

Trade.

112. Sangli has a flourshing trade in jagree, turmeric, ghee, tobacco, cotton and chillies. The opening of the Sangli State Railway, the erection of godowns for wholesale traffic and other facilities the place offers have conduced to its improvement. The other trading centres in the State are Rabkavi and Shahapur, which export cotton piece goods and coloured cotton and silk yarn. The export from these towns are estimated at Rs. 2,00,000 and Rs. 2,70,000 against Rs. 2,75,000 and Rs. 2,79,500 respectively in the last year.

Manufacture.

113. Sangli is noted for copperand brass pots, and articles made of gold, silver and steel-both ornamental and useful. Shahapur and Rabkavi have long since been known for the fast colour of their cotton and silk goods. These colours are now giving way before cheap ones. The traders have, however, latterly began to feel necessity of doing something to improve the colours in point of durability.

114. Terdal and Hangandi manufacture copper and brass wares, especially of the larger kind for house-hold use. Country blankets are manufactured at Shirhatti and in the adjoining villages. Kavathamahankal produces felts and rough woolen carpets. Marihal and Balekundri in Shahapur Taluka and Bannikop in Shirhatti Taluka have small factories of glass bangles. Belhatti in Shirhatti Taluka produces utensils made of soft stones found in quarries in its neighbourhood.

115. Three ginning factories, two turmeric cleaning factories, one oil mill and one weaving mill were at work at Sangli during the year under report. A grinding mill is attached to one of the turmeric factories. There was also one independent grinding mill. One of the ginning factories has been furnished with a press. Besides these there are 7 ginning factories in the Shirhatti Taluka,—3 at Yerebudhihal, 1 at Magdi, 1 at Belhatti, 1 at Hiregunjal and 1 at Yelvatti. One ginning factory was working at Dodvad and a grinding mill at Shahapur. The noteworthy feature of the mill industry in this year is the establishment and working of the oil mill at Sangli which, though a new one, is working well.

Public works.

116. The total expenditure on Public works Department, inclusive of Rs. 14,614 on account of Establishment charges during the year under report

amounted to Rs. 1,10,407 as against Rs. 1,67,334 in the previous year; while that incurred by the Local Boards on works of public utility amounted to Rs. 31,426, as against Rs. 16,402 in the previous year.

The Sangli Water Works.

119. As mentioned in the last year's Administration Report the Sangli Water Works were completed before the year under report opened. They continued to work satisfactorily in the year and removed altogether the complaint regarding the dificiency of water. The supply of water was satisfactory both as regards quantity and quality. The supply of water to the City requires the Engines to

work 5 hours a day; but the working hours were increased to 9 during the latter half of the year, as water was supplied from the new Reservoir to the State Gardens and the new Guest House whenever it was occupied. This required the Engines to be kept working for nearly 9 hours a day. An adequate staff has been maintained to work the Engines which cost Rs. 2,622. Coal supply cost Rs. 7,618-8-6. The Engine and the Boilers were inspected by the Boiler Inspector and the Mechanical Engineer to the Government of Bombay. The Sanitary Engineer to the Government of Bombay also paid a visit to these works in the month of May last.

Post Offices.

120. The number of Post and Telegraph Offices in the State was the same as that in the last year, *viz.* 17 and 3.

Mint.

121. The State keeps no Mint of its own.

The general condition of the People.

122. The general condition of the people, in the year 1913-14 may be considered to be fair, excepting, of course, those of the Mangalwedha Taluka, where great scartity prevailed. In all the other Talukas rainfall was not on the whole very plentiful, though it was in places only timely; though scanty in quantity, it was seasonable and, therefore, very useful. The crops were in a tolerably good condition. The yield was a little below the average. The year can not be, therefore, described as a prosperous or a good one. It was a little below the average, both as regards rainfall and crops. Consequently there was a rise in prices in some months. The rise would have been still greater, but the supply of food grains from the Nizam's Territory kept the prices steady in the Mangalwedha Taluka. Similar rise was observable in other Talukas also. It was only ghee that did indeed show some fall. But it was more due to a larger supply of it from Gujarath, and other places, than to local causes. Milk was dear as before. This is so far as other Talukas go. But the conditions at Mangalwedha were still worse. The rain fall was very scanty and most unseasonable. The first and foremost result was that most of the wells in the Taluka failed by the end of December and in almost all the villages supply of water was scanty. Another result was that no sowing was possible in many villages. Some of the "Mal" villages could raise the first crop, though the yield was very small. The Rabi villages fared still worse. There the lands remained unsown and without any crop, barring a few fields in the eastern part of Mangalwedha and the western parts of Bhalewadi, where the eye could come across green patches. It was on this account that this Taluka sufferred much in the year under report, along with the Talukas of the Sholapur District in its neighbourhood, where famine conditions were prevailing. But the Chief took timely steps to prevent distress. Under his orders, doles were given to those who were unable to earn their livelihood: Doles were also given to inferior village servants, such as Mahars, Rakhavaldars, Shetsanadis etc. The Patils and Kulkarnis had their remuneration increased above a certain minium. They and the inferior village servants had their remunerations paid to them every month instead of twice

in the year. Tagai advances were given to enable people to dig new wells and to improve old ones; they were also given for dams being put up in fields and for other improvements being made therein. Advances were given for the purchase of grass and Kadbi and latterly for the purchase of seed and bullocks. Suspensions of Land Revenue and of the instalments of Tagai were granted, where the people were unable to pay them. As regards work, it may be observed that, like the people in the Sholapur District, those of Mangalwedha also migrated temporarily to places like Poona, Sholapur, Bombay, Lanowlee and to distant places like Mysore, and Banglore, where there was demand for labours and where wages were attractive. Consequently there was no necessity of very big works being started. Yet some works were necessary to provide labour for those that were left in the Taluka to be in charge of houses, cattle, land etc. Work was provided for the benefit of these in some places. Two important works were started; one was the Borale Road and the other was Krishna Tank at Mangalwedha. These provided work to a large number of women, boys and men. In addition to these there were minor Local Fund works, which helped such people to some extent. There was thus a good provision of work for those that required it. For cattle, provision was made by giving Tagai to those that wanted it. The Mal and other villages had some supply of fodder made for them by the early crop. A Local Committee of private gentlemen and State officers was formed for helping rayats in this respect. They collected subscriptions for the purpose; the State gave aid to it and supplied funds for a floating capital for that purpose. This Committee did useful work, quite new to this business as it was. This will give an idea of the measures the Chief had taken to give relief to the people in their distress. It will be seen that all that was possible under the circumstances was done to ameliorate the condition of the people in such hard times.

CHAPTER V.

Revenue and Finance.

123. Appendix XXII compares the receipts and expenditure of the State for the years 1912-13 and 1913-14.

124. The gross revenue of the State, exclusive of Inam adjustments, in the year under report, was Rs. 10,52,960 as against Rs. 10,16,098 for the preceding year.

125. The State has no debt to pay.

126. The invested capital of the State stands at Rs. 12,06,456 which is made up as follows:—

In Government Promissory Notes	5,54,400
Loans given on security of gold ornaments	1,60,201
Loans given on security of immoveable property... ...	2,37,421
Other loans and investments	2,54,434
Total ...	12,06,456

127. During the year under report the State Bank at Sangli had 121

accounts, as against 115 of the last year, the Branch at Shirhatti having 80 accounts as against 92 of the last year. The following table shows the business done by the Banks during the year.

	Bank at Sangli.	Bank at Shirhatti.	Total.
Advances outstanding at the beginning of the year ...	1,01,447 0 9	12,026 8 0	1,13,473 8 9

Balance outstanding at the close of the year	1,49,456 1 11	10,745 0 0	1,60,201 1 11

128. The income of the Banks was Rs. 4,828-7-11 as against Rs. 3,941 of the preceding year. The expenditure was Rs. 260. This gives a net profit of Rs. 4,568-7-11. The Bank was open the whole of the year under the report, as in the preceding year.

CHAPTER VI.

Vital Statistics.

Births.

129. The number of births and deaths and the ratio per mille of population are given in the following table:—

Year.	Births		Deaths	
	Number.	Ratio per mille of population	Number.	Ratio per mille of population
1912–13...	6,819	30	6,612	29·07
1913–14...	7,881	34·67	5,611	24·68

It will be seen that the death rate shows a fall this year, which is due to the fact that the nature of epidemic diseases, such as plague, cholera, &c., was not so severe in any of the Talukas except in Miraj-Prant and except Sangli in particular where plague lingered for some time though it was not very severe.

Cholera.

130. The sub-joined table gives the extent of cholera in the State during the year under report:—

Talukas.	Attacks.	Deaths.	Recoveries.
Miraj-Prant... ...	106	76	30
Kavatha-Mahankal.	33	9	24
Mangalwedha.. ...	25	16	9
Total... ...	164	101	63

Small-Pox.

131. Miraj-Prant, Kavtha-Mahankal and Mangalwedha suffered slightly from Small-Pox during the year under report. The sub-joined table gives the extent of the epidemic:—

No.	Talukas.	Attacks.	Deaths.	Recoveries	Remaining under treatment.
1	Miraj-Prant... ...	47	10	37	...
2	Kavtha-Mahankal..	11	3	...	8
3	Mangalwedha ...	10	2	...	8
	Total ...	68	15	37	16

Plague.

132. Plague was prevalent in all the Talukas except Mangalwedha. It was, however, of a mild type except in Miraj-Prant. The sub-joined table shows the extent of the epidemic:—

No.	Talukas.	Attacks.	Deaths.	Recoveries	Remaining under treatment.
1	Miraj-Prant.. ...	1,708	1,153	528	27
2	Kavtha-Mahankal.	8	6	...	2
3	Terdal...	397	293	84	20
4	Shahapur	75	51	24	...
5	Shirhatti	31	23	8	...
	Total.....	2,219	1,526	644	49

Inoculation was resorted to in two Talukas, viz, Miraj-Prant, and Terdal. Among the 1,060 persons inoculated at Sangli, there were 7 attacks of whom 3 proved fatal.

133. The total expenditure incurred in connection with the epidemic diseases amounted to Rs. 1,612-12-11 against Rs. 480-14-3 in the previous year. This amount includes huntting-allowance granted to State servants.

Medical Relef.

134. The number of Dispensaries during the year under report continued to be the same as that in the last year, *viz.* 7.

135. The total attendance at these institutions was 50,077 against 58,939 in the last year. The details of the work done by the several Dispensaries and the expenditure incurred in connection therewith are given in Appendix XXIII.

136. In 16 distant villages from the Taluka Head-quarters, medical chests, with full instructions, have been kept with some respetable persons; and they have given relief to over 4,124 persons during the year under report.

137. The expenditure on medical relief during the year under report was Rs. 19,610-14-1 against Rs. 22,057 in the last year.

138. The prevailing diseases in the year were plague, small-pox, cholera, worms, malerial fevers and diseases of the respiratory and nervous systems.

139. All the dispensaries in the State are supplied with wards for inpatients, except the one at Dodwad.

140. During the year under report, the dispensaries at Terdal, Mangalwedha, and Kavtha-mahankal were inspected by the Chief Medical officer.

141. Vaccination with glycerinated lymph has been in force in the State and the supply of lymph is received from the Government Vaccine Depot. at Belgaum.

142. The Chief Medical Officer is also the Superintendent of Vaccination in the State. Besides there is one Inspector of Vaccination, and 6 Vaccinators-one for each Taluka. There is one paid candidate Vaccinator, who works in the Superintendent's office and is useful as a relieving hand.

143. Thc number of primary vaccinations was 7,435 against 7,363 in the last year and that of revaccinations 530 against 753: of the primary vaccinations 7,169 against 7,028 were successful and 75 against 95 were unsuccessful and 191 against 240 were unknown. As regards re-vaccinations 265 against 440 were successful and 103 against 152 were unsuccessful, while the result of 162 against 161 was not known.

144. The subjoined table shows the work done by the Department during the year under report as compared with that of the last year:—

Operations by whom performed.	No. of persons vaccinated.		Results.

The percentage of unsuccessful vaccinations is 2.23 against 3.04 of the last year.

145. The total expenditure in connection with the vaccination Department amounted to Rs. 3,546-7-3 against Rs. 3,469-9-10 in the previous year.

146. It may be remarked here that vaccination seems to make good progress in the State, looking to the conditions and prejudices of the people. Barring a few castes that have a strong prejudice against it and that resent such sort of interference with their domestic affairs the people in general appear to take kindly to it -which will be apparent from the small number of victims that small pox is allowed to caray away every year. Day by day popular ideas in this respect are improving and old predices are dying out-though slowly-making the work of such useful departments more and more easy.

CHAPTER VII.

Public Instruction.

147. The numbr of Primary and Secondary schools of all descriptions at the end of the year was 171 with 10,181 pupils attending them. A new Canarese school was opened at Terdal during the year under report. The total number of schools at the end of the year was thus 172 with 9,380 pupils on the roll. Appendix XXV gives the classification of different schools with particulars regarding attendance &c.

148. The number of indigenous schools during the year 24 with 756 pupils as against 23 schools and 734 pupils in the last year.

149. The total number of schools of all sorts thus stood at 196 as against 194, and the attendance was 10,136 against 10,915 in the last year. The fall in attendance was due partly to the scarcity that prevailed in the Mangalwedha Taluka, and partly to plague that raged in the Miraj-Prant and Terdal Talukas.

150 The percentage of pupils receiving instructions at these institutions to entire population was 4.4 against 4.8 of the previous year.

151. The Sangli High School sent up 32 students for the Matriculation Examination and 17 for the School Final Examination, as against 24 and 8 in the last year. Out of these 25 and 7 came out successful as against 11 and 7 in the last year in these two Examinations respectively.

152. The number of students in the High School has risen from 401 to 429.

153. The number of A. V. Schools was the same as that in the last year, *viz.* 5 with 253 scholars against 287 in the last year.

154. Drawing is taught as an optional subject in all classes in the High School and the F. G. A. V. school at Shahapur. The High School sent up 14 students for the First Grade, 8 for Second Grade and 3 for Third Grade Examination in Drawing, of whom 13, 8, and 3 got certificates. The F. G. A. V. School at Shahapur sent up for the same Examination 18, 3 and 3 students of whom 15, 3, and 3 got certificates. This result may be considered to be satisfactory.

155. Physical education is well attended to. Some of the schools have gymnastics taught by special teachers. In respect of religious education it may be mentiond that lectures with the help of the Sanatan Dharma Series Books, continue to be given once in a week in the Sangli High School. Although such lectures are given once a week, still they serve a good purpose in as much as they create a taste of such subjecs in receptive students.

156. The Educational Inspector, S. D. did not inspect the Sangli High School, and the F. G. A. V. School, Shahapur, in the year under report as there was plague at Sangli during the touring season.

157. The number of pupils in the Vernacular schools on the 31st March 1914 was 7,671.

158. The number of Girl's Schools remained the same as in the last year, *viz.* 10 with 795 girls on the 31st March 1914, as against 909 in the last year. This, together with 321 girls attending Boys'schools brings the total of school going girls to 1,116, as against 1,286 in the last year.

159. The number of Hindusthani schools and classes was 1 and 6 respectively, *i. e.* the same as in the previous year. The class in the Nandre school was abolished and a new class was opened in the Shirhatti school. The number of pupils attending the Hindusthani school and classes was 193 as against 216 in the last year.

160. Rural standards were taught in 85 schools to 2,273 pupils as against 85 schools and 2,734 pupils in the last year.

161. The number of low caste schools was the same, *viz.* 5. The attenance in these schools was 116 against 148 of the last year. Low caste boys and girls are admitted into some of the 1st class and 2nd class schools. Their number in these schools was 197. The total number of low caste pupils receiving instructions

was thus 313, as against 465 in the preceding year The fall is due partly to immigration owing to scarcity in Mangalwedha Taluka, partly to the general rise in wages of labourers, and to a certain extent to other causes.

162. The number of Sanskrit schools was the same as that in the last year, *viz.* 5. The number of pupils receiving education in these schools was 88 against 98 in the previous year.

163. The total expenditure on education amounted to Rs. 59,936 against Rs. 57,397, in the previous year.

CHAPTER VIII.

MISCELLANEOUS.

Printing Presses.

164. There are two Printing Presses at Sangli; one of these belongs to the State and the other, known as "Chintamani Press" to a private person named Mr. V. R. Rajwade. He was prosecuted and fined Rs. 51 during the year under report for having printed and published in 1907 a pamphlet named "देशभक्तिशिक्षण" which was proscribed by Government under Section 12 of the Indian Press Act. No news paper is published in the State.

Libraries.

165. There were 12 Libraries in the State at the end of the last year. During the year under report 6 new Libraries were opened—4 in the Shirhatti Taluka, viz, at Belhatti, at Itage, at Yerebudhihal and at Yelvatti and 2 in Shahapur Taluka, viz, 1 at Kadoli and 1 at Shahapur. One Library at Shahapur was closed during the year under report. There were thus 17 Libraries in the State at the end of the year. The total income and expenditure of all these Libraries amounted to Rs. 3,072 and 3,032 as against 3,882 and 3,115 respectively in the last year.

Destruction of Wild Animals.

166. One panther was killed in the Shahapur Taluka and another in the Shirhatti Taluka, during the year under report.

167. There were 3 deaths from snake-bite in the year 1913-14 as against 5, in the preceding year.

Destruction of Prickly-Pear.

168. This work appears to have made good progress as an area of about 47 acres, as against 73 acres in the last year, was cleared of prickly-pear during the year under report.

Fairs.

169. There were in all about 40 fairs held in the State in the year 1913-14 the principal being as given below:—

1. Fakir Swami Fair at Shirhatti in Vaishakha.

2. Prabhu Swami Fair at Terdal, in Shravan.
3. Parbhatmalla Fair at Rabkavi, in Shravan.
4. Peer Mardan Gaibi Fair at Mangalwedha, in Rajab.

Railway.

170. The net earnings of the Sangli State Railway for the year ending 31st March 1914 amounted to Rs. 17,956, which on a total expenditure of Rs. 1,75,151 on the construction of the Railway gives an income of 10·25 per cent on the total outlay during the year under report, which may be considered to be satisfactory.

The State Cattle.

171. The sub-joined table gives the particulars of the State cattle:—

Breed.	Cows (heifers).		Bulls (stallions)		Bulls(castrated	
	1912-13.	1913-14.	1912-13.	1913-14.	1912-13.	1913-14.

Country ...	156	118	2	2	61	32
Total...	526	538	10	11	168	151

172. The expenditure incurred by the State on account of the maintenance of these during the year under report was Rs. 4,341 as against Rs. 3,416 spent on them in the preceding year. The number of cattle in the Farm is 14 Hanam cows and 1 bull, 13 Sorti cows and 1 bull, and 10 Hanam calves and 11 Sorti calves.

173. Forty bull calves were sold for Rs. 2,651 during the year under report against 39 of the last year. There are about 25 saleable bull calves. The camel herd contains 118 heads against 116 in the last year. Fifteen camels were sold for Rs. 1,190 during the year under report. There are about 25 saleable camels yet on hand.

Locusts.

174. Fortunately no locusts appeared in the State during the year under report.

The State Assembly.

175. The State Assembly did not hold its sittings in the year under report.

Taluka Local Boards.

176. The Local Boards are working satisfactorily.

Co-operative Credit Societies.

177. At the commencement of the year, there were 13 Co-Operative Credit Societies in the State. One Society was registered during the year under report

and three Societies were struck off the Register. There were thus 11 Societies working at the end of the year under report. The new law of Co-Operative Societies, viz, Act No. II of 1912, has been introduced in the State during the year under report.

Agriculture and Agricultural

Farm.

178. *(a)* Agriculture being the main stay of the people in this State, as in all other places, efforts are being made to introduce improved methods of agriculture and to induce people to take to them kindly. This is being done through the agency of an expert. The State has engaged for this purpose a graduate of the Agricultural College who is styled " Agricultural Inspector of the State ". It is the duty of the Officer to go about the State, visiting the several Talukas and giving information to agriculturists about improvements to be made in their operations. In the year under report the Agricultural Inspector toured in the Mangalwedha, Kuchi, Miraj-Prant and Shirhatti Talukas. In these places he gave lectures to agriculturists on important subjects, like " dry farming, " " use of improved implements &c.," He advocated the use of bullock and hand hoes, recommended to them the Japan ground-nut, and the Broach cotton, emphasised the necessity of Tals, or field embankments and brought to their notice special fertilisers, safflower cakes, green manures &c. By way of demonstration he showed the work of Gallows plough, bullock and hand hoes, the sugar cane mill of Nahan Foundry, at some villages of the Miraj-Prant Taluka. He made himself useful in another way He acted as an agent for the supply of the seeds of Broach and Cambodia cotton, ground nuts, Jawar, different manures such as fish, cakes, ammonium sulphate, potassium sulphate &c. He also supplied them with cane crushers and English ploughs. It was at his instance, and with the aid of State help, that an enterprising cultivator brought out a Power Cane-Crusher, with three horizontal rollers, manufactured by Chattanoga Co. and imported by Messrs Marshall & Co. The crusher is worked by a 14 H. P. Oil Engine. The State also gave on hire ploughs, levellers, sugar cane mill &c. To help on this sort of work, Agricultural Associations have been established in the State. They are also doing good work.

(b) It may be added here that the services of another graduate of the Agricultural College, who was sent to the College by the State, at its cost and who came out high in the list of successful candidates have been engaged from almost the commencement of the year under report to help the Agricultural Inspector. In the first year he was sent out first to study the working of Agricultural Farm &c., in other places and then he was sent out on tour in the State to study the conditions and requirments of the people. Having completed that work he has been now engaged on his more legitimate duty *i. e.* assisting the Agricultural inspector in his work both at the Head-quarters and in the Talukas. Thus instead of one there will be in future two Agricultural Graduates, going about the State and helping the people in their agricultural operations.

(c) By way of making experiments and giving a demonstration of improved methods of agriculture the State has maintained an Agricultural Farm. In this Farm Broach cotton, ground nuts, Jawar and sugar-cane were grown in the

year under report with the aid of effective fertilisers and manures. Interculture of crops, which helps to conserve soil moisture, was also tried here with safflower and gram. Fruit culture has been also tried. Trees of guava, apples, pomegranate, santra, grapes have been planted and are being reared according to the up-to-date methods. The first four have already begun to bear fruits. The Farm is thus doing very useful work.

Visitors.

(*d*) This Farm was visited by the Extra Deputy Director of Agriculture of the Presidency and the Political Secretary to the Government of Bombay. The Deputy Director was very much pleased with the working and the condition of the Farm and the Political Secretary endorsed the remarks of the expert visitors and recorded his appreciation of the work done at the Farm.

Telephone.

179. There is little to add this year to what was mentioned about Telephone in the last year's Administration report. It may be stated here, however, that the services of an experienced man from the Poona Telegraph District was secured for one year to set the whole system into working order and to set right wires and instruments whenever and wherever they went out of order. The whole system worked satisfactorily and facilitated business greatly.

Financial Condition.

180. From Appendix XXII and from the account given in the preceding paras of the working of the several Departments, it will be seen that the condition of the State was quite satisfactory in the year under report, notwithstanding the short recoveries of Land Revenue and Tagai Advances and notwithstanding the increased expenditure on account of the great scarcity that prevailed in the Mangalwedha Taluka. The year under report opened with a cash balance of Rs. 14,71,570; the receipts amounted to Rs. 19,62,617; these two made up a total of Rs. 34,34,187. The expenditure amounted to Rs. 22,90,691 leaving a balance of Rs. 11,43,496 at the close of the year, the fall being mainly due to loans given by the State on proper securities. Though Mangalwedha suffered from famine and could not bring in even half of the usual Jamabandi Revenue, leaving about Rs. 70,000 in arrears and though that Taluka cost rougly speaking Rs. 30,000 on account of famine operations, the financial condition of the State was not affected to any appreciable degree, all the other Talukas and sources of income having showed satisfactory results.

181. The Chief takes this opportunity of expressing his sincere and heart felt thanks to you and to Major E. O'Brien, Assistant Political Agent, Southern Maratha Country States, for the kind treatment and sound advice, which you and he gave him from time to time and which he appreciates and values most.

I have the honour to be,

Sir,

Your most obedient servent,

M. K. KUMTHEKAR,

State Karbhari Sangli.

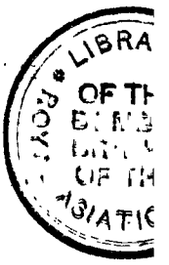
No. 1979 of 1915.

State Karbhari's Office:
Sangli 5th August 1915.

From

Rao-Bahadur,
M. K. Kumthekar, B.A.,
State Karbhari, Sangli.



To

Lieut-Colonel F. W. Wodehouse, C. I. E.,
Resident Kolhapur, and Political Agent,
S. M. C. States.

Sir,

I have the honour, by direction of the Chief of Sangli, to submit the Annul Administration Report of this State, for the Fasli year 1324 ending 5th June 1915.

CHAPTER I

GENERAL AND POLITICAL.

2. The State is divided into 6 Talukas, very widely scattered and spread over four Districts of the Bombay Presidency, from the river Bhima on the North to the Tungbhadra on the South, making administration costly and supervision difficult. It has an area of 1,112 square miles and a population of 2,27,280 according to the Census of 1911. The gross revenue of the State is Rs. 10,28,458 based on the average of the last five years.

3. The Sangli State does not pay annual tribute to Government or to any other State. It has, once for all, ceded to Government, in 1821, a territory then yielding an annual revenue of Rs. 1,35,000 in commutation of service.

4. The Chief of Sangli, Shrimant Chintamanrao Dhundirao, alias Appasaheb Patwardhan, is a Chitpawan Brahmin; he is 25 years old: he is married and has two children, a daughter, by name Shrimati Indumati Tai Saheb and a son, named Madhavrao Rao Saheb, who was born on the 7th of March 1915. The daughter Indumati Tai Saheb is 3 years old and the son about four months old.

5. The Chief has a younger brother by name Kumar Shri Vithalrao Bapusaheb. He has been studying for the Bar in England. He has passed the B.A. Examination of the Cambridge University and also the L.L.B. examination of the same University. He will appear for the Barrister's Examination in October next and also for the M.A. Examination in December next, for which he has been studying at present.

6. The most important event of the year is the breaking out of a war between Germany and Austria on one hand and England, France and Russia on the other. It is in fact a War in which are involved, more or less, all the civilised nations in the Western world. The progress of the war has been so far satisfactory for England and her allies and its end will certainly be such, as will bring on honour and glory to the British Arms and expansion of the Empire and its trade and prosperity. The note-worthy feature of the war, so far as India is concerned, is the most natural and genuine out-burst of loyalty and enthusiasm it has given rise to. People of all castes and creeds, and of all stations in life—rich and poor, young and old, have expressed their genuine desire and readiness to serve the Empire at any sacrifice. Most of the Native States have placed their resources at the disposal of Government for the defence of the Empire The Chief of Sangli has also made a similar offer. As soon as he heard of the breaking out of the War, he sent a telegram to Government placing at their disposal all the resources and Government were pleased to thank the Chief for this offer and informed him that should the course of the operations require it, advantage would be taken of the patriotic offer. He made a donation of Rs. 10,000 for the War Fund and Sowbhagyavati Vahini Saheb has recently sent an amount of Rs. 2,000 for sweets to soldiers, who are fighting for the Empire. The Public of the Sangli State have collected amongst themselves a Fund, which has amounted to about Rs. 11,000. The Chief has also made a present of five horses to Government for the War, which Government have been pleased to kindly accept. He had also offered to supply five tents, when they were urgently required for the troops in France. But their provision having been made in other-quarters, he was not called on to despatch the tents he had offered. It may be stated here that the Chief is ready to render all such help to Government in this, as in all other matters, as is possible for him to do, and that he will be glad to be of service to the Empire.

7. The most important and auspicious event in the history of Sangli is the birth of a son and heir to the Chief. It is an event, which gave rise to an outburst of enthusiasm of loyalty and affection for the Chief and his family, which was due first to the personal popularity of the Chief in the State; secondly to the fact that the birth of a son had almost become only an idea at Sangli. There can only be a few people in Sangli now, who could have participated in the celebration of such an event. It was more than 50 years ago that a son was born to the then Ruling Chief of Sangli. The people, therefore, hailed with delight and joy the advent of a son and heir to the Chief. Numerous were the congratulations sent to the Chief by all classes of his subjects. They celebrated the event in a most suitable manner and blessed their Chief's Son most heartily. The Chief greatly appreciates the feelings of kindness and affection shown to him by the people.

8. Another important occurrence, of quite a different nature, that took place early last year was the unusually high flood the river Krishna had in August last. It was on the 4th of August 1914 that the river began to rise: it rose at the rate of a foot per hour. It was thus, that, though

the river began to rise at 6 P. M. on the 4th of August, by the next morning *i. e.* within 12 hours, most of the town was submerged and the houses stood in deep water; the river kept rising for another 18 hours. It was not before 3 A.M. the next day, that the river showed signs of decline. The town was thus standing in water for more than 30 hours. The result was that more than 250 houses fell down bodily and as many were considerably damaged by the flood. It is very satisfactory to note, however, that not a single life was lost on account of the heavy flood, which was due to the great vigilence and forethought shown by the Chief on this occasion. Timely warning was given to all people, as soon as the river began to show a tendency to rise, and efforts were made to vacate, in time, the houses that were exposed to danger from floods and to accommodate the inmates in private houses and public places. The whole of the town was astir on the night of the 4th August 1914. The Chief did not spare himself; at great personal risk he exerted himself to save people and property during the continuance of the floods. For all the people rendered houselss, accommodation was provided; food was supplied to the poor, who could not earn their livelihood. All the officers of the State exerted themselves most on that occasion in saving life and property and rendering help. In short all that was possible was done.

9. The heavy floods of the last year discovered the great danger to which the town of Sangli, and the newer parts of it more especially have been always exposed. It emphasised the necessity of some measure or measures being taken for the protection of the people against future floods. The most effective and sure measure was naturally the shifting of such of the habitations as were exposed to this danger. Accordingly a large area of open land measuring about 62 acres, has therefore, been acquired, to the east and south of the town, and has been let for building purposes on certain conditions. To suit the requirents and means of the purchasers, the sites have been divided into five classes. The first three classes vary in point of area and the nature of the buildings to be built thereon. The 4th class is set apart for the poor people, such as Vaddars, Mahars, Chambhars, Mangs etc., and the 5th is set apart for the people of the wandering tribe, who put up temporary huts. A separate block is set apart, at a very moderate rate, for timber and bamboo Depots, as they were always exposed to the danger of being washed away. The necessary arrangements for water, light, roads, police protection, etc., have been made. Other conveniences such as, vegetable market and an Infant School will be attended to later on. It is very satisfactory to find that people are very freely and gratefully availing themselves of this measure and more than 110 sites have been already purchased and a few building started. Care will be taken to see that the ordinary requirments as regards sanitation, ventilation etc., are attended to. The whole scheme is estimated to cost about Rs 75,000. The expenditure is rather a large one, but it will save permanently houses and other property from floods and will also afford relief to many congested areas in the town, from where people will gradually move in course of time to these freer areas.

10. Lieut-Colonel F. W. Wodehouse, C. I. E. the Resident, Kolhapur, and Political Agent. S. M. C. States, paid a visit to Sangli in November 1914,

and Shahapur Taluka in February last. Major E. O' Brien, Assistant Political Agent, S. M. C. States paid a visit to Shahapur Taluka in March and to Shirhatti Taluka in February 1915, and had camps at Shirhatti and Davihal. He visited Sangli in September 1914.

CHAPTER II.

Administration of Land.

11. The original Survey of the State was completed in 1880 and the Revision Survey in 1908. Revised rates were introduced into the Shirhatti Taluka in November 1910. The term of the original guarantee in the Mangalwedha and Shahapur Talukas being over later on, revised rates were announced into those two Talukas before the end of the Fasli year 1322. The original rates in the Miraj-Prant, Kuchi and Terdal Talukas remain in force till the end of the year 1915. At the request of the State the services of Mr. V. B. Mardhekar, M.A. a Deputy Collector in the Southern Division, have been very kindly placed at the disposal of the State by the Bombay Government, for the preparation of settlement proposals for these three Talukas. Mr. Mardhekar will be able to submit his proposals about the end of October 1915; and when they are approved and sanctioned, revised rates will be introduced into these three Talukas.

12. There are in all 41 Inam and Saranjam villages in the State. Survey Settlement has been introduced into all these with the exception of 9 and one of the four Makta villages in the Shahapur Taluka. The rest enjoy the benefit of the survey settlement.

13. About one acre of waste (uncultivable) land in Kuchi Taluka was taken up for cultivation during the year under report. There has been an increase of 1807 acres in the cultivable land in the Shahapur Taluka. This is partly due to the Revision Survey but chiefly to the area of the Inam villages of Mavinkatte and Yadalbhavihatti being added to the area of total cultivable area.

14. At the close of the year 1913–14 there were 11 boundary disputes pending settlement. In the course of the year 2 new disputes cropped up making a total of 13. Out of these 13, 4 were settled during the year. Of the 9, remaining on hand, 3 are between this State and the British Government. 6 between this State and other States.

15. The Land Revenue demand according to the Jamabandi of the year 1914–15 amounted to Rs 6,81,868 as against Rs 6,99,783 in the previous year. The decrease is more apparent than real; because the previous year's figure was unusually large as it included arrears for a few passed years. As compared to the average Jamabandi there is neither increase nor decrease worthy of notice. The total collections of Land Revenue inclusive of the fluctuating revenue during the year under report amounted to Rs 7,63,550 as against Rs 6,18,498 in the preceding year. The total increase comes to Rs 1,45,052; to this Mangalwedha alone contributed Rs 1,17,000, which represents the recovery of the last year's revenue which was suspended on account of the famine

conditions then prevailing there. The other Talukas, such as Miraj-Prant, Shirhatti and Terdal collected larger amounts of arrears due for previous years, as the year under report was a good one in point of rain and crops. The arrears outstanding at the end of the year under report, is a little over Rs. 90,000. Of this a large portion is due to necessary adjustments being not made in the year under report; some has been suspended under orders; and a small portion only is to be actually recovered for which steps are being taken.

16. The following table shows the extent of cultivation during the year under report as compared with that of the last year:—

Talukas.	Total cultivable area.		Actually cultivated.		Taken up for cultivation.		Thrown out of cultivation.

17. No general suspensions were given in the year under report.

18. The sub-joined table shows the amount of pressure which had to be exercised in the recovery of Land Reveuue:—

Talukas.	Number of notices issued.	Amount collected after the issue of notices.	No. of cases in which property was attached.	Cases in which property attached was sold.				Total amount recovered by sale of property.
				Moveable property		Immoveable property.		
				No. of cases.	Amount.	No. of cases.	Amount.

It will be seen from the table that there was no necessity of coercive measures in that year.

19. In the year under report I performed the Jamabandi of the Talukas of Kuchi and Terdal, and visited the Miraj-Prant and Shahapur Talukas. The Assistant Revenue Officer did the Jamabandi of the Mangalwedha and Shahapur Talukas and visited Shahapur and Miraj-Prant Talukas.

CHAPTER III.

Protection.

20. Appendix II gives a list of the Laws and Acts that are in force in the State.

Military.

21. There is no Military Force in the State.

Police.

22. The total strength of the Police Force in the State was the same as that in the last year i. e. 455 Foot Police and 35 Sowars. The total expenditure on account of the maintenance of the Force amounted to Rs. 77,022, as against Rs. 75,255 in the last year. The excess is due mainly to the promotions given to the Mounted Police in consideration of the revision of the salaries of the Sowars rendered necessary by the high prices prevailing latterly and the hard work that they have to do.

23. The Foot Police were distributed as follows:—

1.	Employed in detection etc.	182
2.	Jail Lock-ups etc.	175
3.	Employed on Town duties	49
4.	Employed in Courts	9
5.	Employed as orderlies in Offices ...	20
6.	Reserve	20
	Total ...	455

24. The Sowars were employed on escort and other miscellaneous duties.

25. The subjoined table shows the distribution of the Force according to Talukas:—

No.	Name of Division.	Policemen.		Sowars.
		Armed.	Unarmed.	
1	Head-Quarters, Sangli...	112	57	35
2	Sangli Town	...	44	...

8	Shirhatti...	10	27	...
9	Thana Dodwad... ...	2	3	...
	Total.....	175	280	35

26. During the year under report, there were two Punitive Police Posts, one at Adarkatta in the Shirhatti Taluka, consisting of a Head Constable and 3 Constables and the other at Nandra in the Miraj-Prant Taluka, consisting of one Head Constable and 5 Constables. They were rendered necessary by the unsatisfactory conduct of the people of those villages. The Police Post at Adarkatte has been, however, ordered to be removed from almost the commencement of the year 1325 Fasli as much improvement was noticed in the conduct of the people of that village.

27. Of the Policemen, 175 are armed with bored out Martini Henry Rifles, 256 with batons, and 24 with swords.

28. Detailed information regarding the total strength, cost, etc. of the Police Force, is given in Appendix IV.

29. During the year under report, 11 Head Constables, 37 Constables and 3 Sowars in all 51 were departmentally punished as against 9 Head Constables, 25 Constables and 4 Sowars in all 38 in the previous year. One Sub-Inspector and 3 Constables were degraded for gross neglect of duty, as against one Head Constable and 7 Constables so punished in the previous year. One Head Constable, 14 Constables and one Sowar were dismissed for misconduct, as against 10 Constables dismissed in the previous year. Three Constables were judicially punished as against 2 in the last year. As regards rewards for good service, it may be stated that 11 Constables were given promotions for satisfactory work in detection of offences as against 7 in the last year.

30. Out of the whole Police Force, 355, as against 366 in the last year, are able to read and write and 17 against 25 are under instruction.

31. The number of village police was 234, as against 238 in the last year. They assisted the District Police in the detection and prevention of crime. Some of these work partly on service tenure and partly on remuneration in cash, and the remainder wholly on remuneration in cash.

32. The ratio of the Police to the area and the population of the State indicates 1 to every 2.4 miles and 499 souls.

33. The Drill Masters are performing their duties properly.

34. No candidate appeared for the Police Higher Standard Examination. Two candidates appeared for the Police Lower Standard Examination. Both of them were successful.

35. During the year under report, 44 Police and 4 Sowars, as against 56 Police and 7 Sowars in the last year, were under medical treatment, the mortality being 6 against 6.

36. The results of the working of the Police are given in Appendices VI and VII which are summarised, in the following paras:—

37. The total number of cases for disposal by the police was 346, as against 342 in the previous year. Of these, 119 were cognizable cases; 95 were found not to be punishable by Criminal Courts, 5 were false and malicious complaints and the remaining 127 were under investigation at the close of the year. Of these, 48 have been reported for being struck off the register.

38. Three persons were prosecuted for making malicious complaints.

39. Of the 119 cognizable cases, 90 against 107 of the preceding year were sent up for trial and 29 against 37 remained undetected at the close of the year.

40. For cognizable offences, the Police arrested 140 persons against 188 arrested in the last year; out of these 130, against 177 were sent up for trial at the close of the preceding year. The total number of persons tried in the year was 148, of whom 77 were convicted, 54 discharged or acquitted and only 17 remained under trial against 126 convicted, 39 discharged or acquitted, and 18 that remained under trial in the preceding year.

41. The percentage of persons convicted to persons tried was 52.03 against 68·8 in the last year.

42. The value of the property stolen and recovered during the year under report was Rs. 18,020 and Rs. 12,046 against Rs. 12,909 and Rs. 9,056 in the preceding year, giving a percentage of 66·8 against 70·15 that was in the last year.

43. Eight murder cases were reported during the year under report; all of these were sent up for trial. In addition to these, there was one case for trial from the preceding year. All these cases involved 24 accused persons. Out of this number 8 were convicted and 12 were acquitted; 4 persons, all connected with one case remained under trial at the close of the year under report.

44. One case of culpable homicide not amounting to murder, with 6 accused in it was reported during the year. This with one case and 7 accused from the preceding year, came up for trial for the year under report. Out of these 7 were convicted and 6 acquitted.

45. The number of the cases of suicide reported in the year was 23; 8 males and 15 females were concerned in them. There were 92 accidental deaths; 46 males and 46 females died on account of such causes as against 84 in the preceding year.

46. There was no case of dacoity reported during the year under report.

47. There were two cases of robbery involving 3 accused persons, reported during the year; both remained pending trial.

48. During the year under report, property worth Rs. 10,087 against 6,306 was destroyed accidently by fire and that worth Rs. 1,150 against Rs. 1048 in the previous year by incendiarism.

49. Fourteen bad characters were dealt with under Section 109 and 110 of the Criminal Procedure Code in the year under report against 12 in the last year; Of these 2 were convicted and the rest remained under trial.

Criminal Justice.

50. The number of Criminal Courts at work in the State in the year under report was 26. The details of their work are given in Appendix VIII.

51. The number of offences that came up for trial before these Courts in the year under report was 597 with 1426 accused persons against 581 cases with 1333 persons involved, in the preceding year. Of these, the Police arrested 130 against 177 on their own initiative; 176 against 139 were arrested upon warrants and 1081 against 984 arrested in obedience to summonses; 39 against 32 surrendered themselves for trial; none against one in the last year was arrested in the presence of the Magistrate.

52. Including 74 persons remaining over undisposed of in the last year, the total number of persons that came up for trial before these Courts was 1500 as against 1364 in the last year. Of these, 230 against 387 were discharged and 882 against 624 were acquitted; 169 against 233 were convicted; 40 against 44 were committed to the Courts of Sessions; 179 against 74 of the last year were awaiting trial at the close of the year.

Courts of Sessions.

53. There are two Sessions Courts, the Huzur Court and the Nyayadhisha's Court. The Huzur Court, which takes up cases punishable with death or transportation for life had before it, in the year under report, 7 cases and 27 accused persons, as against 6 cases and 20 persons in the preceding year. Of these, 11 were convicted, 12 acquitted and 4 remained awaiting trial. The other Sessions Court which tried offences not punishable with death, had before it, 8 cases and 13 accused persons for trial in the year under report, as against 11 cases and 24 accused persons in the previous year. Of these, 7 were convicted and 6 acquitted.

54. The sentences passed by the Huzur and other Sessions Court, on conviction, were as follows:—

Sentences.	No. of accused persons.	
	Huzur Court.	Sessions Court.

APPELLATE WORK.

55. The number of Criminal Appellate Courts during the year under report was the same as that in the last year, viz. 3. Particulars of the work done by them are given in Appendix IX.

56. The Huzur Court had before it 3 appeals made by 3 appellants in the year under report, as against 2 appeals by 10 appellants in the last year. The subjoined table gives the particulars of their disposal:—

Disposal.	Cases.		Persons.	
	1913-14.	1914-15.	1913-14.	1914-15.

CIVIL JUSTICE.

59. The number of Civil Courts working during the year under report, was the same as in the preceding year, viz, 6. Their pecuniary and territorial jurisdictions remain the same. The work done by these Courts is given in Appendix X of XI. It may be remarked here that the work of these Courts continues to be satisfactory. The number of suits filed and disposed of during the year under review, as contrasted with that of the preceding year, is given below:—

Year.	Opening balance.	Filed during the year.	Total.	Number disposed of.	Balance at the end of the year.
1913–14...	563	1,319	1,882	1,396	486
1914–15...	486	1,333	1,819	1,358	461

60. Of the suits filed during the year, 293 related to immoveable property, 993 to money transactions and 47 to other rights, as against 336, 929 and 54 respectively in the last year. If these suits were classified according to the value of property involved, it would appear that 771 were for amounts below Rs. 100, 443 were for amounts between Rs. 100 and Rs. 500. 72 for amounts between Rs. 500 and Rs. 1,000. 43 for amounts between Rs 1,000 and Rs 5,000 and 4 for over Rs 5,000. The money value of suits relating to immoveable property was Rs 72,826 againts Rs 1,08,915 and that of those relating to money transactions was Rs 1,79,463 against Rs 1,59,193 in the preceding year.

61. The value of the suits filed during the year under report, was Rs 3,26,914 against Rs 2,90,398 and the value of suits disposed of was Rs 3,49,593 againts Rs 3,64,399 in the last year.

62. Of the original suits disposed of, 507 against 495 were contested, 679 against 677 were exparte, 81 against 115 were compromised, 91 against 100 were struck off the file and none against 9 were otherwise disposed of. The average duration of suits was 9 months and 9 days against 9 months and 17 days of the last year.

63. In addition to the regular suits disposed of by the several subordinate Courts 235 Miscellaneous Applications were dealt with by them against 185 in the last year.

APPELLATE WORK.

64. The number of Civil Appellate Courts was the same as that in the last year, viz. 2- the Huzur Court and the Nyayadhish Court. The total number of appeals for disposal before these Courts including the balance from the previous year was 474 against 413 in the last year. Of these, 333 against 265 were disposed of in the year under report, leaving a balance of 141 against 148 of the previous year.

65. Appendix XII shows the disposal of these appeals in the year under report and the preceding year.

66. The longest duration of appeals in the Huzur Court was 6 years 1 month and 4 days, as against 4 years 8 months and 5 days in the last year and the shortest duration 16 days as against 2 months and 25 days in the previous year.

67. The longest duration of appeals in the Nyayadhish Court was 1 year and 9 months against 2 years and 5 months in the last year, and the shortest duration was 30 days against 24 days in the preceding year. Besides the regular appeals 10 Miscellaneous Appeals and 23 Miscellaneous Applications were disposed of by the Nyayadish Court.

Execution of Decrees.

68. The following statement shows the aggregate number of applications for execution filed and disposed of by the several Courts during the year as compared with those disposed of in the previous year:—

Year.	Opening balance.	No. filed.	Total.	No. disposed of.	Closing balance.
1913-14	444	1086	1530	1138	392
1914-15	392	1061	1453	1135	318

69. Of the remaining undisposed of applications 92 are below 6 months, 96 below 12 months and 130 are more than one year old against 123, 89, and 180 respectively, in the last year.

70. The value of the applications for execution registered during the year under report was Rs. 3,67,730 against Rs. 2,81,431 in the preceding year and the value of applications disposed of was Rs. 3,02,560 against Rs. 3,62,129 in the last year. The amount of recoveries by execution was Rs. 92,781 against Rs. 83,377 of the last year and the amount recovered by decree-holders without the intervention of the Court was Rs. 13,007 against Rs 88,836 of the preceding year.

71. The receipts during the year under review from all sources including stamps, process fees etc. were Rs. 44,236-1-2 against Rs. 41,931-14-3 in the last year and the expenditure on all heads was Rs. 19,561-0-7 as against Rs. 19,194-5-4 in the preceding year. The net balance in favour of the State is Rs. 24,675-0-7 as against Rs. 22,737-8-11 in the preceding year.

Mamlatdars' Courts Acts.

72. During the year under report the Mamlatdars' Courts including that of the Dodwad Wahiwatdar disposed of 58 cases, as against 50 cases in the last year.

Extradition.

73. During the year under report, 5 persons against 14 in the last year, were obtained by extradition from the British Government, and 2 against 6 from Native States. Of these 7 persons so obtained 3 have been convicted, 2 acquitted and 2 remained pending trial in the State Courts.

Eight persons were surrendered to the Native States during the year under report.

Jails.

74. There is one Central Jail at Sangli and 7 Lock.ups at Taluka Stations, including those at Mhaisal and Dodwad.

Central Jail.

75. The Central Jail is situated within the old Fort at Sangli. The accommodation is quite sufficient for the number of prisoners that are generally there. The whole building is well lighted, well ventilated and well guarded. During the floods, the whole precincts except the night-cells were submerged and the prisoners were kept for 2 days on the second floor of the Diwankhana.

Convicted Prisoners.

76. Sixty-seven against one hundred and six prisoners were admitted into the Jail during the year under report. These together with 87 prisoners remaining over at the close of the last year bring up the total to 154 as against 175 in 1913-14. Of these 51 against 76 were released on the expiry of sentences, 2 against nil were let of under Jail Manual Rule 417, 2 against 1 were transferred from this jail to other jails (1 to British Jail and 1 to Mangalwedha sub-jail) 3 against 7 were released on appeal, 1 against nil

was let off on bail; 18 were discharged from the jail in celebration of the most auspicious event of the birth of a son and heir to the Chief Saheb and 77 against 87 remained in Jail at the close of the year under report.

77. Of the prisoners admitted during the year, those sentenced to six and less than six months were 30 against 70. None was sentenced to whipping; none against 2 was sentenced to fine only, and 37 against 34 were sentenced to longer terms of imprisonment.

78. The number of Jail offences was 13 in the year under report, while in the previous year no offence was reported.

79. The sub-joined table shows the different diet scales in use in the Sangli District Jail.

80. The scale for females, simple imprisonment and under-trial prisoners is the same as given above, except that they get 19½oz of flour, 3oz of Dal and 6oz of vegetables. Curds was given in the months of March, April and May. If the simple imprisonment convicts choose to work they are given the full scale.

UNDER-TRIAL PRISONERS.

81. There were 84 under-trial prisoners against 80 of the last year. Of these 35 against 62 were convicted, 37 against 15 were discharged or acquitted, 3 against nil were handed over to other authorities for trial and 9 against 3 remained under trial at the close of the year under report.

CIVIL PRISONERS.

82. Three against four Civil prisoners were admitted during the year under report. None remained undischarged at the close of the year.

OTHER PARTICULARS.

83. The total expenditure of the Sangli Jail during the year under report, was ~~Rs~~ 11,076 against ~~Rs~~ 9,021 of the last year. The annual cost per head of the dietary charges came to ~~Rs~~ 62 against 65 and the total annual cost per head amounted to ~~Rs~~ 123 against 119 of the last year. The increase is due to new dresses given to warders. This amount does not take into account the charges of the guard supplied by the Police.

84. Male convicts sentenced to hard labour were given full penal tasks according to their state of health and capacity for work. Female convicts were, as usual, employed in grinding and winnowing grain, and spinning and twisting fibres.

85. The Jail Factory turned out articles worth ~~Rs~~ 997 against ~~Rs~~ 1,008 and sold articles of the value of ~~Rs~~ 1,189 against ~~Rs~~ 1,146 of the previous year. These figures represent only the cost of raw materials used, and do not take account of the labour of prisoners. The Factory has two Japaneese Looms, 6 Hand Looms and 2 Verticle Looms in good working order.

86. The produce of the Jail garden amounted to ~~Rs~~ 184 against ~~Rs~~ 376 of the last year. The decrease is due to the abnormal flood, which destroyed all vegetable crops sown at the time. The garden supplies vegetables to prisoners for about 9 months in the year.

87. The health of the prisoners was generally good. In all 177 prisoners were under medical treatment during the year. Of these 175 were cured and two let off under Jail Manual Rule 417.

88. The remission system is working well. Of 51 prisoners released during the year 16 got the benefit of the system.

89. The total amount realised on account of Jail labour came to ~~Rs~~ 1,579 against ~~Rs~~ 1,464 of the last year. The sources from which the amount was realised are as follows:—

Rs.	226	on account of	factory labour.
„	464	„	keeping clean the Wada compound.
„	116	„	Grinding charges.
„	612	„	Miscellaneous labour.
Rs.	1,418		

90. During the year under report the Secretary to Government in the Political Department, the Resident, Kolhapur and Political Agent, S. M. C. States and the Assistant Political Agent, S. M. C. States visited the jail; they made the following remarks in the Visit Book.

(1) "Visited the Jail this morning. Every thing clean and good order".

(2) " Visited the Jail this morning in company with the Chief; 81 male convicts, 5 women convicts, 2 under trial prisoners; no complaints. A model Jail ".

(3) " Every thing in good order. The convicts look very fit and are evidently well cared for. No one is in hospital ".

LOCK-UPS.

91. In the several Lock-ups there were, at the beginning of the year, under report, 11 under-trial prisoners and no convicts. During the year under report, 116 against 143 under-trial prisoners and 62 against 73 convicts were admitted, giving a total of 127 and 62 respectively against 155 and 77 for the last year. At the close of the year there remained in the Lock-ups 4 under-trial prisoners and 2 convicts.

REGISTRATION.

92. The details of the work done by the Registration Department are given in Appendix XIV. The number of documents presented for registration during the year under report was 3,539 against 3,670, in the last year, making with the last year's balance of 15 a total of 3,554. Of these 3,539 against 3,699 were registered, 2 against 11 were refused registration and 13 against 15 remained unregistered at the close of the year. The total value of documents registered during the year was Rs 12,93,245 against Rs 13,73,479 in the previous year.

93. The receipts from and expenditure on account of the Registration Department amounted respectively to Rs. 19,125 and Rs. 844 against Rs. 20,024 and Rs 1,119 in the last year, leaving a balance in favour of the State of Rs 18,282 against Rs 18,905 in the previous year.

MUNICIPALITIES.

94. Information regarding receipts and expenditure of the Municipalities in the State is given in Appendix XVI. It may be noted here that they amounted to Rs 56,668 and Rs 52,830 respectively, as against Rs 58,613 and Rs 57,754 in the previous year. The closing balance of all the Municipalities, amounted, on 31st March 1915, to Rs 42,966.

95. The arrears outstanding at the close of the year amounted to Rs 20,228, as against Rs 18,161 at the end of the last year. Steps will be taken in time to recover these.

96. The principal source of income of the various Municipalities is house-tax; octroi is levied at Mangalwedha and Rabkavi only. The receipts from it amounted to Rs 1,296 at Mangalwedha and to Rs 1,001 at Rabkavi. The octroi revenue at Shahapur has been taken over by the State and a fixed annual grant of Rs 2,000 is given to it instead.

97. The receipts of the fees on the sale of cattle at Sangli, amounted to Rs. 2400 in the year under report as against Rs. 2500 in the last year. The fall is slight and does not deserve notice. Similar fees are also levied at Mangalwedha, but the receipts are comparatively small.

98. Of these Municipalities in the State those at Sangli and Shahapur enjoy the right of election, while the rest have their councillors nominated by the Chief Saheb. The Municipalities at Sangli and Rabkavi also enjoy the privilege of a non-official President nominated by the State.

Wards' Estates.

99. At the beginning of the year under report there were 60 minors with 47 estates under the care of the State. Ten minors with 7 estates against 10 minors with 9 estates in the previous year came under State management during the year, making a total of 70 minors and 54 estates. During the year under report 5 estates were handed over to 8 minors on their attanining majority.

100. At the end of the year under report, there remained under State management 49 estates owned by 62 minors, against 47 estates of 60 minors in the last year. Particulars of these estates are given in Appendix A.

101. The opening and closing balances of minors' estates for the year under report were Rs. 5,29,522 and Rs. 5,23,034 respectively as against Rs. 4,46,993 and Rs. 5,29,522 in the last year. Of the closing balance, Rs. 4,64,500 are invested in Government securities, Rs. 1267 are deposited in Postal Savings Banks, Rs. 53,445 are in Pathak Treasury; and the remaining Rs. 3822 are in the hands of the respective Vahiwatdars to enable them to meet the current expenditure of the different minors.

102. The income of these estates realised during the year, consisted mainly of the following items:—

		~~Rs~~
1	Rent of lands	19,036
2	Interest on loans	7,046
3	Recovery of debts	16,645
4	Sale proceeds of ornaments etc.	5,470
5	House rent	1,050
6	Other miscellaneous receipts ...	20,263
	Total.....	69,570

103. The aggregate money value of the minors' estates amounts to Rs 6,64,676. It is made up as follows:—

		~~Rs~~
1	Immoveable property (lands) measuring 2,112 acres, 5 gunthas assessed @ ~~Rs~~ 4,853	67,942
2	Moveable property, including bonds, personal loans, ornaments etc.....	73,700
3	Cash, including Govt. Securities and deposits in Postal Savings Banks...	5,23,034
	Total.....	6,64,676

104. The sub-joined table classifies the 19 estates in regard to their annual income:—

Not exceeding Rs. 50.	Above Rs. 50 but not exceeding Rs. 100.	Above Rs. 100 but not exceeding Rs. 500.	Above Rs. 500 but not exceeding Rs 1,000.	Above Rs. 1,000 but not exceeding Rs. 5,000.	Above Rs. 5,000 but not exceeding Rs 10,000.	Total.
8	1	20	9	8	3	49

105. Out of 62 minors 7 are girls, who are all non-Brahmins: none of them attends the school.

106. Of the 55 boy-minors, 44 attend schools, 7 are below age and 4 follow their respective family avocations.

107. The minors' affairs are carefully looked after by the Nyayadhish and the Curator of minors. The Nyayadhish saw the minors in four Talukas viz, Mangalwedha, Shahapur, Terdal and Miraj-Prant and found that their health, education and general interests were well looked after by the respective wahiwatdars.

CHAPTER IV.

Production and Distribution.

Weather and Crops.

108. Appendix XVII gives figures showing rain-fall for all the Talukas of the State from which it will be seen that the rain-fall was more copious than timely; the result was that the out-turn of crops was not in many places as it was expected to be.

109. Appendix XVIII compares the prices of food grains in the year under report with those of the previous year.

110. The wages of skilled and unskilled labour ranged respectively from 8 annas to one rupee and 5 annas to 8 annas per day. This is so far as the rates go. But the supply of labour is very limited, the consequence being that though the rates have gone up the amount of work done by coolies and others is unsatisfactory, as strict supervision and discipline could not be exercised properly lest the workmen might give up work.

FORESTS.

111. The area of the State Forests was at the end of the year, the same as that in the last year, viz. 60,679 acres, or more correctly 60,678 acres and 36 gunthas.

112. The receipts and expenditure of the Forest Department for the year under report, amounted to Rs. 26,534 and Rs. 11,578, as against Rs. 21,678

and Rs. 9,805 respectively, in the last year. The increase in receipts, which chiefly consisted of the sale proceeds of fuel was due to larger demand for it. About Rs. 1,738 were collected on account of arrears of grazing fees for previous years. The increase in expenditure was due to the assessment due for Forest lands for the 1323 Fasli year being paid this year.

113. There are two small Forest Nurseries in the Shahapur Taluka; one is at Godihal and the other at Basankol. Both are in fair condition.

114. The number of Forest offences detected during the year under report was 8 against 5 in the last year. Six of these were enquired into by the Forest Officer. One theft of sandal wood with 4 offenders was committed to the Court of the 1st Class Magistrate, Shahapur, and one is pending investigation. The offenders in the theft case were awarded imprisoment for six months each.

TRADE.

115. Sangli has a flourshing trade in jagree, turmeric, ghee, tobacco, cotton and chillies. The opening of the Sangli State Railway, the erection of godowns for wholesole traffic and other facilities the place offers have conduced to its improvement. The other trading centres in the State are Rabkavi and Shahapur, which export cotton piece goods and coloured cotton and silk yarn. The export from these towns are estimated at the same amounts of the last year viz. 2,00,000 rupees and Rs. 2,70,000 respectively.

MANUFACTURE.

116. Sangli is noted for copper and brass pots, and also for articles of gold, silver and steel--both ornamental and useful. Shahapur and Rabkavi have long since been known for the fast colour of their cotton and silk goods. These colours are now giving way before cheap ones. The traders have, however, latterly began to feel the necessity of doing something to improve the colours in point of durability, and they have been trying to retrieve the lost ground in point of credit.

117. Terdal and Hangandi manufacture copper and brass wares, especially of the larger kind of house-hold use. Country blankets are manufactured at Shirhatti and in the adjoining villages. Kavtha-Mahankal produces felts and rough woolen carpets. Marihal and Balekundri in Shahapur Taluka and Banikop in the Shirhatti Taluka have small factories of glass bangles. Belhatti in Shirhatti Taluka makes articles of soft stone, which is found in the quarries in its neighbourhood, articles mostly useful in the cook-room.

118. The following is the list of factories that were at work in the State during the year under report:—

Place.	Ginning factories.	Turmeric factories.	Grinding mills.	Oil mills.	Weaving mills.
Sangli.	3	2	1	1	1
Shahpur	0	0	2	0	0
Rabkavi	0	0	1	0	0
Dodwad	1	0	0	0	0
Yerebudhihal ...	3	0	0	0	0
Belhatti	1	0	0	0	0
Hiregunjal	1	0	0	0	0
Yelwtti	1	0	0	0	0
Total	10	2	4	1	1

One of the turmeric factories at Sangli, has also a grinding mill attached to it.

Public Works.

119. The total expenditure on Public Works, inclusive of Rs. 16,429 spent on establishments during the year under report, amounted to Rs. 1,25,327, as against Rs. 1,40,407 in the previous year. Whilst that incurred by the Local Boards on works of public utility amounted to Rs. 19,700, as against Rs. 31,426 in the previous year.

120. Appendix XIX shows the distribution of the amount of expenditure according to different sub-heads.

121. The most important of the works either completed or in progress in the year are as show belown.

SANGLI WATER WORKS.

122. During the year under report the cost of the working of the Engines was as follows:—

1.	The establishment charges	2,839- 3- 7
1.	Supply of coal.	6,881- 6- 0
1.	Miscellaneous charges...	2,586- 0-11
	Total Rs.	12,306-10- 6

The Engines and Boilers were inspected by the Government Boiler Inspector and the Mechanical Engineer to Government of Bombay. The Engines continue to work satisfactorily and give a steady water supply. The water works have been working satisfactorily and give no trouble so far.

POST OFFICES.

123. The number of Post and Telegraph Offices in the State was 18 and 3 as against 17 and 3 respectively in the last year, one branch Post being newly opened at Marihal in the Shahapur Taluka during the year under report.

MINT.

124. The State keeps no mint of its own.

GENERAL CONDITION.

125. The general condition of the people of the State in the year under report, may be described as good on the whole. In all the Talukas of the State the rain-fall was copious. It was much above the average in some places. It was in some places rather too heavy—heavy enough to have done harm to crops in a few places. Shahapur recorded the highest rain-fall which amounted to 79 inches and 44 cents, lowest being at Mangalwedhe, which registered 23 inches and 37 cents. This, though small as compared to that at other places, was sufficient, above the average, for the requirements of the Taluka. The crops in that part were in a good condition and the yield was also satisfactory. They had an abundant supply of fodder in the last year, the result being a fall in the prices of Kadbi and grass, which sold at 5 rupees per thousand bundles. The reverse was the case in a few other Talukas, like Miraj-Prant, Kuchi &c. where fodder was very deficient in quantity and sold at a very high rate, a rupee fetching only 20 bundles.

Though very copious later on the rain-fall was deficient at the commencement of the moonsoon in a few Talukas. It was then so defective that no sowing of sesamum could be attempted. This caused much loss to the people who generally rely on this crop for profit, as it pays well, having a good demand for it. The crops were on the whole in a good condition, and the yield was satisfactory, though they did not realise their expectations. The prices did not, however, show any signs of a fall. They kept at the same high level, barring a few articles, especially cotton, which became rather cheap later on in the year. Though the crop of sesamum altogether failed and cotton became cheap, still the revenue of the year came in very well. Mangalwedha Taluka was in a position to pay almost the whole of the revenue due for the year under report and that for the previous year, which was suspended on account of the scarcity that was then prevalent in that Taluka. In short in the year under report the rain-fall was copious; the crops were in a very good condition; their yield was satisfactory; it sold well and brought in good prices. The people were thus on the whole quite happy and contented.

CHAPTER V.

Revenue and Finance.

126. Appendix XXII compares the receipts and expenditure of the State for the years 1913-14 and 1914-15.

127. The gross revenue of the State, exclusive of Inam adjustments, in the year under report, was Rs. 10,64,054 as against Rs. 10,52,960 in the preceding year.

128. The State has no debt to pay.

129. The invested capital of the State stands at Rs. 12,86,480 which is made up as follows:—

(a)	In Government Promissory Notes	Rs	5,62,100
(b)	Loans given on the security of gold ornaments	,,	1,74,594
(c)	Loans given on the security of other property.	,,	2,44,698
(d)	Other loans and investments	,,	3,05,088
		Total...	12,86,480

The invested captial shows an increase of Rs. 72,324 as compared with that invested in the year 1323 Fasli. The amount invested in promissory Notes shows an increase of Rs. 7,700 as more Notes have been purchased; the other sub-heads also show an increase as some more amounts have been advanced as loans, bearing a larger rate of interest and on proper securities or to substantial and solvent parties.

130. During the year under report, the State Bank at Sangli had 112 accounts as against 121 of the last year, the Branch at Shirhatti having 88

accounts as against 80 in the last year. The following table shows the business done by the Banks during the year.

	Bank at Sangli.			Bank at Shirhatti.			Total.		
Advances outstanding at the beginning of the year ...	1,49,456	1	11	10,745	0	0	1,60,201	1	11
Sums advanced during the year.	99,841	8	2	23,075	0	0	1,22,916	8	2
Total ...	2,49,297	10	1	33,820	0	0	2,83,117	10	1
Recoveries made during the year.	87,143	3	7	21,380	0	0	1,08,523	3	7
Balance outstanding at the close of the year	1,62,154	6	6	12,440	0	0	1,74,594	6	6

131. The income from these Banks was Rs. 7,777-2-3 as againsnt Rs. 4,828-7-11 in the preceding year. The expenditure was Rs. 260. This gives a net profit of Rs. 7,507-2-3. The Bank was open the whole of the year under report as in the preceding year.

CHAPTER VI.

Vital Statistics.

Births.

132. The number of births and deaths and the ratio per mille of population are given in the following table:—

Year.	Births		Deaths	
	Number.	Ratio per mille of population	Number.	Ratio per mille of population
1913–14...	7,881	34·67	5,611	24·68
1914–15...	7,972	35·07	6,715	29·55

Though there appears to be an increase in the death rate this year, it is not above the average ordinary death rate of 30 per milli, exclusive of epidemics. The increase is partly due to plague in the Miraj-Prant, Kuchi, Shahapur and Shirhatti Talukas and partly to cholera that prevailed in the Miraj-Prant Taluka and also in other Talukas.

Cholera.

133. Cholera was prevalent in all the Talukas except Shirhatti, but it was rather severe in Miraj-Prant. The subjoined table gives the extent

of cholera in the State during the year under report:—

Talukas.	Attacks.	Deaths.	Recoveries.
Miraj-Prant ...	652	267	385
Kuchi	88	46	42
Mangalwedha ...	14	10	4
Terdal	46	30	16
Shahapur	31	31	0
Total	831	384	447

Small Pox.

134. The Talukas of Kuchi and Mangalwedha slightly suffered from small-pox. The following table gives the extent of the epidemic:—

No.	Talukas.	Attacks.	Deaths.	Recoveries	Remaining under treatment.
1	Kuchi	12	3	9	0
2	Mangalwedha ...	19	2	17	0
	Total ...	31	5	26	0

Plague.

135. During the year under report Plague prevailed in all the Talukas except Mangalwedha. But it was not of a severe type in any of the Talukas, as will be seen from the following table:—

No.	Talukas.	Attacks.	Deaths.	Recoveries	Remaining under treatment.
1	Miraj-Prant.. ...	173	110	63	...
2	Kuchi...	264	173	76	15
3	Terdal...	8	2	6	...
4	Shahapur	287	187	100	...
5	Shirhatti	90	68	22	...
	Total.....	822	540	267	15

After the outbreak of the disease 739 persons were inoculated in Miraj-Prant; 202 in Shahapur, 526 in Shirhatti and 442 in Terdal Taluka by State Officers. Besides these, about 500 persons in Shahapur and about 500 in Shirhatti Taluka got themselves inoculated by private Doctors. In all

about 2,900 persons were inoculated. This shows that inoculation is becoming more and more popular in this State and is very willingly availed of by the people.

136. The total expenditure incurred in connection with epidemic diseases was Rs. 1,732-12-3 against Rs. 1,612-12-11 in the last year. This included hutting allowances given to State servants residing beyond Municipal limits.

Medical Relief.

137. The number of Dispensaries during the year under report, was the same as that in the last year, viz. 7.

138. The total attendance at these institutions was 56,802 against 50,077 in the last year. The details of work done by the several Dispensaries and the expenditure incurred in connection therewith are given in Appendix XXIII.

139. In the 16 villages, that are distant from the Taluka Head-Quarters, Medicine-Chests, with full instructions, are kept with some respectable persons, these have given relief to over 3,234 persons during the year under report.

140. The expenditure on medical relief during the year under report, was Rs. 16,859-2-2 against Rs. 19,610-14-1 in the last year. The decrease is due to the resignation of the former Chief Medical Officer who was getting much larger salary than usually allowed to such posts; the new incumbent gets Rs. 250 a month while the former used to draw Rs. 400 per month.

141. The prevailing diseases in the year were, plague, small-pox, cholera, worms, malerial fevers and diseases of the respiratory, nervous and digestive systems.

142. All the Dispensaries are supplied with wards for in-patients except the one at Dodwad.

143. During the year under report, all the Dispensaries excepting the one at Dodwad were inspected by the Chief Medical Officer who found them to be in a good working order and doing useful work, giving relief to the needy.

144. Vaccination with glycerinated lymph has been in force in the State, the supply of which is received from the Government Vaccine Depot at Belgaum every year.

145. The Chief Medical Officer is also the Superintendent of Vaccination in the State. Besides there is one Inspector, to supervise the vaccination work done by six Vaccinators i. e. one for each Taluka. There is also one paid Vaccination candidate, who is useful as a relieving hand and who works in the Superintendent's Office at other times.

146. The number of primary vaccinations was 7,212 against 7,435 in the last year and that of revaccinations 454 against 530; of the primary vaccinations 6,944 against 7,169 were successful, 50 against 75 were unsuccessful and the result of 218 against 191 was unknown. As regards revaccination 26 against 265 were successful and 346 against 103 were unsuccessful, while the result of 82 against 162 was not known.

147. The subjoined table shows the work done by the Department during the year under report, as compared with that in the last year:—

Operations by whom performed.	No. of persons vaccinated.		Results.					
			Successful.		Unsuccessful.		Unknown.	
	1913-14	1914-15	1913-14	1914-15	1913-14	1914-15	1913-14	1914-15
Miraj-Prant Vaccinator..	1,806	1,873	1,756	1,681	13	153	37	39
Shahapur „ ...	1,529	1,346	1,508	1,289	2	32	19	25

Total.....	7,965	7,666	7,432	6,970	178	396	35 3	300

148. The percentage of unsuccessful vaccinations is 3.91 against 2.23 of the last year.

149. The total expenditure incurred in connection with the vaccination Department amounted to Rs 3,510-11-9 as against Rs 3,546-7-3 spent on it in the previous year.

150. It may be remarked here that vaccination seems to have made a good progress in the State, looking to the conditions and prejudices of the people. Barring a few castes that have a strong prejudice against it and that resent such sort of interference with their domestic affairs, the people in general appear to take kindly to it, which will be apparent from the small number of victims that small pox is allowed to carry away every year. Day by day popular ideas in this repect are improving and old prejudices are dying out, though slowly, making the work of such useful departments more and more easy. It is well known that the operations are now carried with new lymph hand to hand, glycerinated lymph has been in use now. At first there was some prejunice against it, but latterly people are getting used to it and have begun to see its advantage over the old one. Generally speaking vaccination, even with the new lymph, is making good progress all round.

CHAPTER VII.

PUBLIC INSTRUCTION.

151. The number of Primary and Secondary schools of all descriptions at the end of the year 1323 Fasli was 172 with 9,380 pupils attending them. Three new schools were opened in the Shirhtti Taluka during the year under report. The total number of schools at the end of the year under report was thus 175 with 8895 pupils on the roll. Appendix XXV gives the lassification of different schools with particulars regarding attendance &c.

152. The number of indigenous schools during the year was 15 with 736 pupils as against 24 Schools and 756 pupils in the last year.

153. The total number of schools of all sorts thus stood at 190 as against 196, and the attendance was 9831 as against 10,136 in the last year. The fall in attendance was due to the prevalence of plague for some months in most of the Talukas.

154. The percentage of pupils receiving instructions at these institutions to the entire population was 4.2 against 4.4 of the previous year.

155. The Sangli High School sent up 28 students for the Matric and 15 for the School Final Examination in November 1,914; 7 students passed in each. In March 1915, 25 students were sent up for the Matric and 8 for the School Final, of whom 7 and 5 respectively passed the Examinations.

156. The number of students in the High School has risen from 429 to 445.

157. The number of A. V. Schools was the same as that in the last year, viz. 5 with 291 scholars against 253 in the last year.

158. Drawing is taught as an optional subject in all classes in the High School and the A. V. School at Shahapur. The High School sent up 26 students for the First Grade, 16 for Second Grade and 7 for the Third Grade Examinations in Drawing, of whom, 20, 15 and 2 got certificates. The A. V. School at Shahapur sent up for the same examination 20, 7 & 4 students, of whom 12, 5 and 4 got certificates. These results would appear to be quite satisfactory.

159. Physical education is also attended to. Some of the schools have gymnastics taught by special teachers. Lectures on religious subjects continue to be given once a week in the Sangli High School.

160. The Educational Inspector, S. D. did not inspect the Sangli High School, and A. V. school, Shahapur, in the year under report as he had done before.

161. The number of pupils in the Vernacular schools on the 31st March 1915 was 7,181.

162. The number of Girls' schools remained the same as in the last year viz. 10 with 753 girls on 31st March 1915, as against 795 in the last year. This together with 285 girls attending Boys' schools brings total of school going girls to 1,038 as against 1,116 in the last year.

163. The number of Hindusthani schools and Classes was 1 and 6 respectively, *i. e.* the same as in the previous year. The number of pupils attending the Hindusthani schools and Classes was 215 as against 193 in the last year.

164. Rural standards were taught in 88 schools to 2,053 pupils, as against 85 schools and 2,273 pupils in the last year.

165. The number of low caste schools was the same, viz. 5. The attendance in these schools was 100 against 116 of the last year. Low caste boys and girls are admitted into some of the 1st class and 2nd class schools. Their number in these schools was 159. The total number of low caste pupils receiving instructions in the State schools was thus 256, as against 313 in the preceding year. The fall is due as observed in para 153 ante, to plague that prevailed in many places.

166. The number of Sanskrit schools was the same as that in the last year, viz. 5. The number of pupils receiving education in these schools was 75 against 88 in the previous year.

167. The total expenditure on education amounted to Rs. 61,457 against Rs. 59,936, in the previous year. This increase is mostly confined to the Sangli High School where two posts with 70 and 50 rupees per month have been created and some of the teachers got promotions.

CHAPTER VIII.

MISCELLANEOUS

PRINTING PRESSES.

168. There are two Printing Presses at Sangli; one belongs to the State and the other to a private person, by name, Mr. V. R. Rajwade. It is named Chintamani Press. It does sundry job work. No news-paper is published in the State. The State Press does most of the printing work of the State; it is doing very good work and answers its purpose very well.

Libraries.

169. There were 17 libraries in the State at the end of the last year. During the year under report, 2 new libraries were opened, 1 at Dodwad in the Shahapur Taluka and the other at Kadkol in the Shirhatti Taluka. Thus at the end of the year there were 19 libraries in the State. The total income and expenditure of these 19 libraries amounted to ~~Rs~~ 3,111 and ~~Rs~~ 3,023 respectively as sgainst ~~Rs~~ 3,072 and ~~Rs~~ 3,032, in the last year. The number of members making use of these libraries was 580.

DESTRUCTION OF WILD ANIMALS.

170 No wild animal was killed in the year under report;nor was there any animal troubling the people of the State anywhere.

171. There were 7 deaths from snake bite in the year as against 3 in the previous year. 3 of them were in kuchi Taluka, 2 in Shahapur Taluka, and 1 was in Mangalwedha Taluka and the same number in the Terdal Taluka.

DESTRUCTION OF PRICKLY PEAR.

172. Nearly an area of 22 acres, as against 47 acres in the last year, was cleared of pricklypear during the year under report.

FAIRS.

173. There were in all about 32 fairs held in the State in the year 1914-15, the principal being as given below:—.

1. Fakirswami Fair at Shirhatti, in Vaishakh.
2. Prabhu--Swami Fair at Terdal, in Shravan.
3. Parbhatmalla Fair at Rabkavi, in Shravan.
4. Peer-Mardan Gaibi Fair at Mangalwedha, in Rajab.

RAILWAY.

174. The net earnings of the Sangli State Railway in the year ending 31st March 1915 amounted to Rs, 17,495-0-7 which on a total expenditure of Rs 1,77,882-15-0 incurred on the construction of the Railway, shows the income to be at the rate of Rs 9.83 per cent on the total outlay during the year under report, which may be considered to be quite satisfactory.

THE STATE CATTLE.

175. The State cattle numbered 183 cows, 11 stallion bulls and 65 other bulls. The number is reduced to some extent as some of the cattle died during the heavy rains of 1914.

176. The expenditure incurred by the State on acount of the maintenance of these animals during the year under report, was Rs 4,530 as against Rs 4,341 in the preceding year. The number of cattle in the Farm is 26 Sorti cows, 15 heifers, 10 calves and 1 bull stallion.

177. No bull calves were sold during the year. There are about 20 saleable bull calves. The camel herd contains 102 heads against 118 in the last year. Fifteen camels were sold in the course of the year and fetched Rs. 1,205. There are yet about 25 saleable camels on hand.

LOCUSTS.

178. No locusts appeared in the State during the year under report.

THE STATE ASSEMBLY.

179. The State Assembly held its sittings on the 2nd, 3rd and 4th of October 1914. It was attended by 27 members. The meetings were presided over by Mr. G. R. Kamatnurkar, Assistant Revenue Officer of the State. No questions of great importance came forward for discussion. The topics discussed related to ordinary matters concerned with the conveniences and comforts of the Rayats.

TALUKA LOCAL BOARDS.

180. The Local Boards are working satisfactorily.

CO-OPERATIVE CREDIT SOCIETIES.

181. At the commencement of the year, there were 14 Co-Operative Credit Societies in the State. One Society viz. that of Terdal was struck off

the Register during the year under report. Out of the remaining 13 Societies 2 are of limited liability and the rest of unlimited liability. The total amount of capital raised by these Societies is Rs. 22,961; the total number of members is 1,077 and the total amount carried to reserve fund is Rs. 2,109. Rs. 6,500 have been advanced by the State as loan to some of these Societies.

AGRICULTURE AND AGRICULTURAL FARM.

182. (a) Agriculture being the main stay of the people in this State, as in the rest of the Country, efforts are being made to introduce improved methods of agriculture and to induce people to take to them kindly. This is being done through the agency of an expert. The State has engaged for this purpose a graduate of the Agricultural Collage Mr. M. G. Athalye, who is styled " Agricultural Inspector of the State ".

It is the duty of this Officer to go about the State; he pays visits to the several Talukas and gives information to agriculturists about improvements to be made in their operations. In the year under report he visited a number of important villages in the Miraj-Prant, Kuchi and Shahapur Talukas and discussed with the local leading agriculturists several points in connection with agriculture and its needs. He impressed upon them the advatages of using more efficient and economic ploughs, hand hoes, canecrushing mills, the Poona and double furnaces, oil cake, fish and ammonium sulphate as manures, the use of jumpers for taking test bores before digging wells etc. He also discussed with them the advisibility of establishing fodder stores in villages, by means of the collection and preservation of fodder on the Baluta system. As a consequence of such discussions certain cultivators from Shahapur Taluka applied for a demonstration of the work of Arlington and other ploughs, the Nahan and American Mills and the Poona furnace. These demonstrations were accordingly arranged for. A plough was purchased; the mill and pan were taken on hire and four new furnaces of the Poona type were built and used by the leading agriculturists. In some of the villages of the Kuchi Taluka these have become too popular to require any further demonstration on the part of the Department. In this Taluka ploughs, mills, and other implements were given on hire and were also sold at cost price, the total purchase amounting to Rs. 500. Poona furnace has been adopted in 8 villages and their number is increasing. The Agricultural Inspector also saw the work of the Power Crusher installed last year by an enterprising land owner at Vazarchavande, a village in the Kuchi Taluka of this State. It is very satisfactory to find that the crusher worked well and proved its superiority over ordinary crushers.

(b) As an advance towards educating the agricultural public of the State, batches of selected cultivators, from the Miraj-Prant, Kuchi and Mangalwedha Talukas, were taken this year to the agricultural demonstrations at the Poona and Manjri Farms. Some of them purchased on the spot ploughs, chaff cutters etc., worth Rs. 200. It must be admitted that such demonstrations so kindly ordered and arranged for by Government have a great educating effect on the agricultural population and it is hoped that these will be repeated in this year also.

(c) Experiments on ensilage of (1) grass from State Pasture lands cut about the end of August, (2) weeds from cotton and other Kharip crops collected in September at Borgaon, and of (3) sugarcane tops and green leaves stripped at the harvest time at Kakti were made with success. The first experiment was made by the State and the latter two by the Rayats. Ensilage of weeds is of special economic importance, in as much as it deals with a stuff that generally goes to waste. These experiments were found to be much useful and interesting by the agriculturists. This is a very useful system and deserves further trial. To study the whole question carefully the Chief paid a visit or two last year to the Military Dairy at Poona, where ensilage is being tried on a much larger scale and saw for himself what was being done there as regards this system of improving the quality of the ordinary fodder.

(d) As was mentioned in the last Administration Report, the Agricultural Inspector acts as an agent in the matter of the supply of improved implements of agriculture seeds etc. Accordingly in the year under report, he received 21 orders for agricultural machinery, implements etc., such as oil engines, cane crushers, hand-pumps, ploughs hoes etc., together valuing at Rs.5,600 Seeds of big Japan groundnuts, Broach, Cambodia and Kumtha cross cottons amounting to more than 1½ tons and manures of ammonium sulphate, saff lower-cake and fish of nearly the same weight were supplied to out-siders at a cost of Rs. 500.

(e) It must be stated here, that the State maintains an Agricultural Farm, measuring 65 acres, where several experiments are tried each year and crops are raised by improved methods, under the direct supervision of the Assistant Agricultural Inspector, Mr. Gokhale, who is also a B. Ag. This Farm serves the purpose of an Experimental Farm. In this Farm in the year under report Broach, Cambodia and Kumtha cross cottons, varieties of local jowar, spelt wheat, and sugar-cane were grown as usual. Sugar-cane was planted 3½ feet apart, this distance being twice as much as is usually kept. This wide plantation induced a robust and tall growth and gave an even stand to the crop. This method has been adopted this year by some cane-planters in the Kuchi Taluka. A compost of fish, safflower cake, and stable manure was applied with advantage to the old co-coanut plantation during the rainy season. The other fruit plantations are doing well. The few grapes and figs are doing well. On the whole the Farm has been doing very good educational work in the field of agriculture, not without bringing in some return for the expenditure that it entails.

(f) During the year the Farm was visited by the Resident, Kolhapur, and Political Agent, S. M. C. States, and the Assistant Political Agent, S. M. C. States, in the company of the Chief Saheb. Both the Officers appreciated in general the work done by the Agricultural Department at Sangli.

TELEPHONE.

183. The Telephone system inaugurated last year continued to work satisfactorialy at a cost of Rs. 642-6-0 in the year under report. It has supplied a grate convenience and has facilitated references between different Offices

and Officers. The system includes thirteen sub-stations from the Mal-Bungalow on one side of the town to the Ganpati Temple on the other. There is one Inspector to look after the whole system under the general guidance and control of the Water Works Engineer, who kept the system in the year in a good working order.

FINANCIAL CONDITION.

184. Generally speaking it may be stated at the outset that the financial condition of the State is a sound one, and is such as will give satisfaction to all concerned. For details regarding finances reference is solicited to Appendix XXII which shows the income and expenditure of the State under several heads; the preceding paras will also give detailed information about the working of the different Departments; all these must show that the finances of the State are in a quite satisfactory condition and that the year under report proved to be a good one from a financial point of view. The year under report, opened with a cash balance of Rs 11,43,496 it brought in Rs 18,18,147 making a total to Rs 29,61,643; the expenditure amounted to Rs 16,54,237 leaving a balance of Rs 13,07,406 at the end of the year under report.

185. The Chief has directed me to convey his sincere and heart-felt thanks to you and Major E.O'Brien, Assistant Political Agent, Southern Maratha Country States, for the very kind treatment and sound advice which both of you gave him from time to time the course of the year under report and which he appreciates and values most.

I have the honour to be,

Sir,

Your most obedient servant,

M. K. KUMTHEKAR,

State Karbhari Sangli.
